REGULATION MADE UNDER THE OCCUPATIONAL HEALTH AND SAFETY ACT

DESIGNATED SUBSTANCE—MERCURY

1. In this Regulation,

(a) "joint health and safety committee" includes a joint health and safety committee established under section 8 of the Act, a committee of like nature and the workers or their representatives who participate in an arrangement, program or system conforming to subsection 8 (2) of the Act;

(b) "mercury" means elemental mercury, inorganic compounds of mercury and organic compounds of mercury;

(c) "mg" means milligrams;

(d) "m³" means cubic metre. O. Reg. 141/82, s. 1.

2. Mercury is prescribed as a designated substance. O. Reg. 141/82, s. 2.

3.—(1) Subject to subsection (3), this Regulation applies to every employer and worker at a work place

where mercury is present, produced, processed, used, handled or stored and at which the worker is likely to inhale, ingest or absorb mercury.

(2) Subject to subsection (3), an employer to whom this Regulation applies shall take every precaution reasonable in the circumstances to ensure that every worker who is not an employee of the employer but who is working in the work place of the employer and is exposed to mercury and whose health is likely to be affected thereby is protected and the worker shall comply with the requirements of the employer.

(3) Subsection 3 (2) and sections 4 to 17 of this Regulation do not apply to,

- (a) a constructor, an employer who is carrying out a project or a worker working on or at a project; or
- (b) an employer who is engaged in the practice of dentistry as defined in the *Health Disciplines Act* or a worker who works in the office of such an employer. O. Reg. 141/82, s. 3.

4.—(1) Every employer shall take all necessary measures and procedures by means of engineering controls, work practices and hygiene practices and facilities to ensure that the time-weighted average exposure of a worker to airborne mercury, except alkyl mercury compounds, shall not exceed 0.05 mg mercury per m³ of air, and in the case of exposure to alkyl mercury compounds 0.01 mg mercury per m³ of air.

(2) Notwithstanding subsection (1), an employer shall ensure that the maximum concentration of exposure to airborne mercury shall not exceed 0.03 mg mercury per m³ of air in the case of alkyl mercury compounds and 0.15 mg mercury per m³ of air in the case of mercury other than alkyl mercury compounds provided that the exposure of a worker to such maximum concentration,

- (a) shall not exceed fifteen minutes at any one time;
- (b) shall not occur more than four times in a work day; and

(6) On a prosecution for a failure to comply with subsection (1), it shall be a defence for an employer to prove that he has complied with subsection (1) and that a breach of subsection (1) occurred solely because a worker failed to work in compliance with the work practices and hygiene practices in accordance with the provisions of the mercury control program and the employer has taken every precaution reasonable in the circumstances to require the worker to do so. O. Reg. 141/82, s. 4.

5.—(1) Where the strict duty imposed by subsection 4 (1) or (2) cannot be complied with because,

- (b) the measures and procedures necessary to control the exposure of a worker to airborne mercury,
 - (i) do not exist or are unavailable,

 - (iii) are not effective because of a temporary breakdown of equipment,

the employer shall provide a worker with respiratory equipment which shall be used by the worker.

(2) Where respiratory equipment is provided by an employer and used by a worker, the respiratory equipment shall be appropriate in the circumstances for the type and the concentration of airborne mercury and shall meet or exceed the requirements set out in the Code for Respiratory Equipment for Mercury dated the 16th day of November, 1981, and issued by the Ministry.

(3) The employer shall provide training and instruction to a worker in the proper care and use of respiratory equipment provided by the employer. O. Reg. 141/82, s. 5.

6.—(1) Every employer to whom this Regulation applies shall cause an assessment to be made in writing of the exposure or likelihood of exposure in a work place of a worker to the inhalation, ingestion or absorption of mercury.

(2) In causing the assessment to be made, the employer shall consider and take into account such matters as,

- (a) the methods and procedures used or to be used in the processing, use, handling or storage of mercury;
- (b) the extent and potential extent of the exposure of a worker to the inhalation, ingestion or absorption of mercury; and

(4) A copy of the assessment made by an employer shall be given by the employer to each member of the joint health and safety committee. O. Reg. 141/82, s. 6.

7.—(1) Where the assessment discloses or would, if made in conformity with section 6, disclose that a worker is likely to inhale, ingest or absorb mercury and that the health of the worker may be affected thereby, the employer shall develop, establish, put into effect and maintain measures and procedures to control the exposure of the worker to mercury and shall incorporate the same into a mercury control program.

(2) The mercury control program shall include provisions for,

- (a) engineering controls, work practices, and hygiene practices and facilities to control the exposure of a worker to mercury;
- (b) methods and procedures to monitor the concentrations of airborne mercury in the work place and the exposure of a worker thereto;
- (c) personal records of the exposure of a worker to mercury at the work place including the time-weighted average exposure of the worker and of the concentrations of mercury and the times in which such concentrations were taken to be representative of the exposure of the worker and used in calculating the average exposure to be maintained by the employer;
- (d) medical examinations and clinical tests of a worker; and
- (e) records of medical examinations and clinical tests of a worker to be maintained by a physician who has examined the worker or under whose direction the examinations and tests have been performed.

(3) In developing the measures and procedures mentioned in subsection (1) and the mercury control program, the employer shall consult with the joint health and safety committee and the committee may make recommendations with respect to the same. O. Reg. 141/82, s. 7.

8. Where a change is made in a process involving mercury, or in the methods and procedures in the use, handling or storage of mercury and the change could result in a significant difference in the exposure of a

worker to the inhalation, ingestion or absorption of mercury, the employer shall cause a further assessment to be made forthwith and the provisions of sections 6 and 7 apply to the further assessment. O. Reg. 141/82, s. 8.

9.—(1) Where disputes arise between an employer and a joint health and safety committee, as to an assessment required under section 6 or 8 or as to the measures and procedures mentioned in subsection 7 (1) or the mercury control program or its provisions required under section 7 or 8, the employer, a member of the joint health and safety committee or the committee may notify an inspector thereof who shall investigate and give a decision in writing to the employer, the member or committee.

(2) Nothing in subsection (1) applies so as to affect the power of an inspector to issue an order for a contravention of this Regulation. O. Reg. 141/82, s. 9.

10.—(1) A copy of the mercury control program put into effect by the employer shall be given by the employer to each member of the joint health and safety committee and the employer shall acquaint every worker affected by the mercury control program with its provisions.

(2) A copy of the mercury control program put into effect by the employer shall be made available by the employer in English and in the majority language of the work place. O. Reg. 141/82, s. 10.

11. Subject to section 17, the procedures for monitoring, sampling and determining the concentrations of airborne mercury in the atmosphere of a work place and the exposure of a worker thereto shall be those set out in the Code for Measuring Airborne Mercury dated the 16th day of November, 1981, and issued by the Ministry. O. Reg. 141/82, s. 11.

12. The results of monitoring the concentrations of airborne mercury in the work place and the exposure of a worker thereto as provided by the mercury control program shall be,

- (a) posted forthwith by the employer as soon as the results are available, in a conspicuous place or places at the work place where they are most likely to come to the attention of the workers affected thereby, for a period of at least fourteen days;
- (b) furnished to the joint health and safety committee; and
- (c) kept by the employer for a period of at least five years. O. Reg. 141/82, s. 12.

13.—(1) A worker shall, at the expense of the employer, undergo the medical examinations and clinical tests required under the mercury control program.

(2) The medical examinations and clinical tests required under the mercury control program shall make provisions for,

2. File a separate report with respect to each company of which you are an insider.
3. securities of the company outstanding". If you qualify in more than one capacity, so state. The term "insider" is defined in section 72 of the Corporations Act.

State all changes in beneficial ownership of, or control or direction over, capital securities of the company during the calendar month for which you are reporting and also beneficial ownership of or control or direction over capital securities as of the end of the month. Report every transaction involving a change in beneficial ownership of, or change in control or direction over, capital securities during the month even though purchases and sales or other changes during the month are equal or the change involves only the nature of ownership. Instruction 8 elaborates upon the nature of ownership.

6. Show the date (day, month and year) of each transaction opposite the amount or number of capital securities involved in the transaction and state the price at which each capital security was sold, purchased or transferred.

In addition, where you have transferred or caused to be transferred capital securities of the company into the name of an agent, nominee or custodian, the name and address of such agent, nominee or custodian must be included, unless such transfer was for the purpose of

giving collateral for a bona fide debt.

Report capital securities owned indirectly on separate lines from capital securities owned directly. 9. If you acquired from or sold to the company of which you are an insider any of its capital securities, so state. If the acquisition of capital securities was through the exercise of an option, so state and give the price paid for each capital security. If any purchase or sale was effected otherwise than in the open market, so state giving particulars. If the transaction was not a purchase or sale, indicate its character. The character may be described, for example, as a "gift" or "stock dividend" and may be included under Item 9 of this Form.
10. You may include any additional information or explanation that you deem relevant.
11. If the report is filed on behalf of a corporation, partnership, trust or other entity, the name of the corporation or other entity shall appear in printed form and the name and office of the signee shall be in printed form immediately following the signature and there shall be filed with the Commission, in the case of a corporation, a certified copy of the resolution or by-law authorizing such person or persons to file. If the report is signed on behalf of an individual by an agent, there shall be filed with the Commission a duly completed power of attorney. The name of each individual signing a report shall be typed or printed legibly below the signature of the individual.
12. If space provided in any item is insufficient, additional sheets may be used. Additional sheets must be cross referred to the item and properly identified and signed.

Those reporting insider transactions should be guided by the following items in completing this report:

- (a) The Commission staff are not permitted to correct, delete or add to a report. Therefore, ALL paragraphs

must be completed.

- (b) One should make certain that the amounts are consistent with the information given in previous reports.
- (c) Where a report is intended to show directly held capital securities being disposed of in such a manner that the position becomes indirect, or vice versa, it is essential that both sides of the transaction are reported. For example, if Mrs. Jones wishes to transfer 100 directly owned shares in Corporation "A" to a corporation controlled by Mrs. Jones, named Corporation "B", it should be shown both as a sale by Mrs. Jones and as a purchase by Corporation "B" under Item 7. We suggest that Item 9 be utilized to draw attention to these circumstances.
- (d) Reporters are reminded that "stock splits" constitute a change in their holdings.
- (e) Where attachments are used to record detailed transactions these should be totalled and the totals carried forward to Item 7 on the Form.
- (f) When reporting indirect holdings always refer to the corporations involved by full name. One should not, for example, use such identification as Corporation "A".
- (g) Reporters are reminded that purchase warrants, puts, calls, or other transferable options are considered capital securities of a company and must be reported.

THE ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 169/82.
 Exemption—Ontario Hydro.
 Made—February 17th, 1982.
 Approved—March 5th, 1982.
 Filed—March 19th, 1982.

ORDER MADE UNDER THE
ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—ONTARIO HYDRO—OH-25

Having received a request from Ontario Hydro that an undertaking, namely:

The activity of negotiating for the acquisition of property and the activity of completing those property transactions for which an agreement of purchase and sale was signed or for which an option was obtained by Ontario Hydro prior to December 10, 1981 for the purpose of a River Bank Stabilization Program located on the Mississagi River in the Townships of Gladstone, Bright, Cobden, Thompson and the Village of Iron Bridge,

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following interference or damage with the persons and property indicated will occur:

A. The owners who wish to sell and who received a prior commitment from Ontario Hydro to purchase their property will be interfered with if Ontario Hydro cannot commence negotiations or complete transactions previously entered into while the Mississagi River Bank Stabilization Program environmental assessment is being prepared.

B. Ontario Hydro will be interfered with and damaged by the delays in the carrying out of its commitments to complete property transactions exempted hereby and by the increased costs associated with these delays.

Having weighed such interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

A. Commencement of negotiations for the acquisition of properties and completion of those transactions entered into prior to December 10, 1981, will allow Ontario Hydro to respond immediately to public concern regarding settlement of claims for past erosion and action to protect property from future erosion. On December 10, 1981, Ontario Hydro became aware that the Mississagi River Bank Stabilization Program was subject to the Act. It is my opinion that

until that date, Ontario Hydro was acting in good faith in entering into agreements or making commitments for the purchase and sale of property on the Mississagi River.

B. The exemption of this undertaking will not affect the review, acceptance and approval or disapproval of any part of the proposed Mississagi River Bank Stabilization Program.

This exemption is subject to the following terms and conditions:

1. The acquisition of property, or options or entering into agreements to acquire property pursuant to this order shall not be used by Ontario Hydro to justify any particular undertaking which may involve the property in question, nor shall it be given any weight in the decisions that must be made under the Act on the undertakings in question.
2. The present use of a property acquired pursuant to this order shall not be substantially changed before an approval to proceed with the changes proposed in the Mississagi River Bank Stabilization Program is received under the Act.
3. The activity of obtaining an option or entering into an agreement of purchase and sale, to acquire a property for the purpose of the Mississagi River Bank Stabilization Program where such option was not obtained or agreement not entered into prior to the 11th day of December, 1981 is only exempt under this order provided that the option or agreement is made conditional on the Act being complied with prior to closing. However, the activity of carrying out the agreement or exercising such an option to complete the acquisition of the property is not exempt under this order and shall not be carried out until approval is received under the Act.
4. Ontario Hydro shall submit a list of all those agreements of purchase and sale entered into and options obtained before the 11th day of December, 1981, to the Director of the Environmental Approvals Branch within 45 days of the date of this order.
5. Ontario Hydro shall submit an environmental assessment for the Mississagi River Bank Stabilization Program by June 1, 1982.

O. Reg. 169/82.

KEITH C. NORTON
Minister of the Environment

Dated this 17th day of February, 1982.

THE ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 170/82.

Exemption—Ministry of Government Services.

Made—March 5th, 1982.

Approved—March 5th, 1982.

Filed—March 19th, 1982.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF GOVERNMENT SERVICES—MGS-49

Having received a request from the Minister of Government Services that an undertaking, namely:

The activity of developing and implementing "special lease" projects for the Provision of Accommodation Program and described in Condition 1,

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following damage or interference with the persons indicated will occur:

- A. The Crown will be damaged and interfered with by the undue expense required to prepare environmental assessments for projects that will have no significant adverse effects on the environment.
- B. The programs of the various client ministries of the Ministry of Government Services will be interfered with and possibly damaged in that existing, leaseable accommodation is either unavailable or unsuitable for current or future program requirements and, therefore, precludes operating in as efficient a manner as possible; and
- C. The public will be interfered with in that the level of service available from the client ministries, the efficiency with which it is effected, and the access to that service is restricted by the availability of suitable existing leasable accommodation.

Having weighed such damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act.

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The presently existing facilities are inadequate for facilitating the client ministries' programs;
- B. The Minister of Government Services has assured me that:
 - i. the special lease projects will be implemented in accordance with all municipal by-laws;
 - ii. the developments will be keyed to the local infrastructure. Municipal services such as sanitary and storm sewers, potable water, parking, transportation, power/energy requirements and communication facilities are adequate and available;
 - iii. cultural and heritage concerns have been dealt with in a logical and sympathetic fashion in keeping with the legislative requirements of the *Heritage Act*; and
- C. These projects were exempt from the Act under Exemption Order MGS-46, published in *The Ontario Gazette*, October 17, 1981, as Ontario Regulation 658/81. However, the Exemption Order ceased to apply on January 1, 1982 as the December 31, 1981 deadlines established in Conditions 2 and 6 of the Order were not met. In this regard, the Minister of Government Services has stated to me that his Ministry is developing an approach to meeting the requirements of the Act which will result in requests for exemption orders for projects within the Provision of Accommodation Program becoming the exception rather than the rule.

This Exemption Order is subject to the following terms and conditions:

1. This Order only applies with respect to the following projects:
 - (a) Ministry of Health,
Ambulance Station,
840 McConnell Avenue,
Cornwall, Ontario.
 - (b) Ministry of the Attorney General,
Provincial Court (Criminal & Family Division),
Simcoe Street,
Peterborough, Ontario.
 - (c) Ministry of the Attorney General,
Provincial Court (Criminal Division),
Civic Administration Complex,
Oshawa, Ontario.

2. That tenders for construction of the projects be awarded no later than June 30, 1982.
3. That the Ministry of Government Services notify the Environmental Approvals Branch, Ministry of the Environment between 30 and 100 days prior to the calling of tenders for each of the projects, advising that the Ministry of Government Services has reviewed the undertaking in question and is of the opinion that the current situation under which the project is proposed is unchanged from the situation that existed on the date that this exemption order was issued.
4. In situations where the Ministry of Government Services does not have the responsibility for tender call, the date of award for purposes of condition 2 will be considered to be the one on which the agreement is signed to supply the accommodation requirement.
5. Where an activity that would otherwise be exempt under this Order is being carried out in connection with, or as part of, an undertaking for which an environmental assessment has been done and approval to proceed received, the activity shall not be exempt under this Order but shall be carried out in accordance with the approval to proceed.

THE ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 194/82.

Exemption—Ministry of
Natural Resources—MNR-37.

Made—March 16th, 1982.

Approved—March 22nd, 1982.

Filed—March 31st, 1982.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF NATURAL RESOURCES—MNR-37

Having received a request from the Minister of Natural Resources that an undertaking, namely:

The activity of acquiring property within Hamilton Township, Northumberland County as specified in Schedule A of this order for the purpose of conducting detailed technical studies to determine the suitability of the property for construction of a Fish Culture Station;

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The Crown and the public will be interfered with by the unnecessary expense in preparing an environmental assessment of an undertaking, the acquisition of land, which is expected to have insignificant consequences on the environment.

- B. There is a shortage of fish hatchery facilities in Eastern-Central Ontario which will be prolonged by delay in identifying and acquiring a suitable site for a Fish Culture Station. This will hamper the Ministry in fulfilling its commitment to provide recreational angling opportunities for the people of Ontario.

Having weighed such injury, damage, or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and order that the undertaking is exempt from the application of the Act for the following reasons:

- A. The property has been identified from an examination of a large number of potential sites as being the most suitable for the development of a Fish Culture Station in the Eastern-Central Ontario area. The development of a Fish Culture Station in the Eastern-Central Ontario area has been identified by the Ministry of Natural Resources as the highest priority fish culture project.
- B. Portions of the site are currently for sale.
- C. The Ministry of Natural Resources shall comply with the *Environmental Assessment Act* for the construction of a Fish Culture Station before any facility is constructed on the site.
- D. The acquisition of the site shall not be considered as grounds influencing or affecting any approvals granted under the *Environmental Assessment Act* for the proposed Fish Culture Station.

This exemption is subject to the following terms and conditions:

1. The Ministry of Natural Resources shall obtain the necessary approvals under the *Environmental Assessment Act* before construction of the proposed Fish Culture Station.
2. The Ministry of Natural Resources will advise the Director of the Environmental Approvals Branch of the progress of the technical studies undertaken at this location to determine the suitability of the site for a Fish Culture Station. O. Reg. 194/82.

(5) Where under this section the board that provides the instruction and the other board or party concerned cannot agree upon a factor, the factor shall be determined by three arbitrators, one arbitrator appointed by the board that provides the instruction, one arbitrator appointed by the board from which or the party from whom the fee is receivable and one arbitrator appointed by the Minister, and the decision of the arbitrators or a majority of them is final and binding upon the board that provides the instruction and the other board or party concerned. O. Reg. 198/82, s. 6.

7. Where a board, except a board appointed under section 70 of the Act, provides an education program in a hospital or treatment centre that is not referred to in section 15 of Ontario Regulation 197/82 the fee payable in respect of a pupil who is not qualified to be a resident pupil of the board and for whom such an education program is provided shall be such as may be agreed upon between the board that provides the program and the parent or guardian of the pupil or the board of which the pupil is qualified to be a resident pupil. O. Reg. 198/82, s. 7.

8. This Regulation applies to fees for pupils in respect of the year 1982.

ASSOCIATION OF PROFESSIONAL ENGINEERS OF ONTARIO

NOTICE—CONFIRMATORY EXAMINATIONS

As of July 1st, 1982, applicants for registration who have gained their engineering degrees outside of the university accreditation systems in Canada or the United States of America will be required to write a series of confirmatory examinations.

The purpose of the examinations is to permit applicants to "confirm" they have, in fact, satisfactory academic qualifications, and to ensure that the Association is being as equitable as possible to applicants from a wide range of training sources, while upholding a standard of admission which assures the protection of the public interest.

There is no particular concern about the practice of persons already admitted. However, information regarding foreign universities, fragmentary at best in the past, has become dated and open to question. The Association has therefore removed from its list of recognized degree programs all those offered at universities which are not accredited by processes approved by the Council, and has rescinded all other concessionary admission policies which have from time to time been adopted.

Specific information will be provided to individuals as they make formal application to the Association. General inquiries may be made in writing to:

SITE IDENTIFICATION

- 1) The Borden Site Designation Scheme is described in the *Guide to Ontario's Archaeological Site Records* (see Sources). To obtain & the Borden number assigned to a site documented with the Ministry of Citizenship and Culture, contact the Ministry. (see Sources).
- 2)
- 3) Any systematic means of site identification other than the Borden Scheme, used by the researcher.
- 4) Any name by which the site is or has been known. It is preferable to record the most common local name in usage; if none exists, the researcher may assign any name he/she chooses.
- 5) Any additional names or identifiers, including incorrect Borden numbers, by which the site is or has been known.

SITE LOCATION

- 6) Ontario.
- 7) County may be obtained from recent Ministry of Transportation and Communications (M.T.C.) maps or from local sources. Record Regional Municipality where more appropriate. In areas of the province that are not organized into counties, record the district.
- 8) Township may be obtained from recent M.T.C. maps or from local sources. Leave blank for areas of the province that are not organized into townships.
- 9) Lot and concession may be determined from recent M.T.C. maps or from local sources. Where lots do not exist, leave blank.
- 10) Approximate elevation may be determined from small scale N.T.S. maps. Indicate whether elevation is supplied in feet or metres. Do not convert from feet to metres or vice versa.
- 11) Index number of smallest scale National Topographic Series (N.T.S.) map upon which site location appears. For most of Ontario, this will be a 1:50,000 scale map, although portions of southwestern Ontario are covered at a scale of 1:25,000. Some areas of northern Ontario covered only by N.T.S. 1:250,000 maps are mapped at approximately 1:32,000 through the Ministry of Natural Resources M-plan series. These maps may be used in communicating the site location, however, reference to an N.T.S. map is still required.
- 12) Photocopy the section of the smallest scale N.T.S. map upon which the site location appears. Label this copy with the map index number and the Borden number of the site. Clearly mark the exact location of the site on the copy, using a pen of contrasting colour. The location should be consistent with the military grid reference and elevation given.
- 13) Prepare a sketch map of the site if you have conducted more than a cursory surface inspection of the site. A map drawn during a previous investigation of the site may be used as a base upon which to provide updated information concerning the nature of the site and activities conducted on it. The map should portray the results of your investigation so as to enable the site to be re-located in the field, to permit the site location to be accurately communicated for land use planning purposes, to provide an understanding of the site's situation in the landscape, and to indicate the areas where activities were conducted on the site. Include the following:

a) scale;	c) land use (e.g. fields, gravel pit, structures);
b) direction indicator;	f) areas examined;
c) drainage and transportation networks in the area;	g) concentrations of cultural remains;
d) terrain, including key landforms;	h) delineation of site boundaries as presently understood.

 Refer to the Site Investigation section of the form before completing map.
- 14) Military grid reference is explained on all small scale N.T.S. maps and in the *Guide to Ontario's Archaeological Site Records*. Using a metric ruler to calculate the third digits of both easting and northing, provide a reference to at least six digits.
- 15) Describe the site location in an orderly manner from the general to the specific, indicating the most convenient access route and means of travel as though giving directions that would enable someone to find you at the site. Mention the relationships of local drainage and transportation networks to the site and supply accurate distances from permanent features on the landscape (e.g. building, stream, obvious point of land). Tie location description to features indicated on the accompanying sketch map.

SITE INVESTIGATION

- 16) The name of the person making the site observations and inferences documented on this form.
- 17) The archaeological licence number under which activities were conducted at the site.
- 18) The year and month when current investigation of the site commenced.
- 19) Discuss your reasons for visiting this site.
- 20) Referring to the sketch map, describe the field methods (e.g. mapping, sampling and recording techniques) that were used in the examination of this site.

Filed—April 8th, 1982.

REGULATION MADE UNDER THE
CROP INSURANCE ACT (ONTARIO)

CROP INSURANCE PLAN FOR CARROTS

1. The plan in the Schedule is established for the insurance within Ontario of carrots. O. Reg. 217/82, s. 1.

Schedule

Crop Insurance Act (Ontario)

PLAN

1. This plan may be cited as “The Ontario Crop Insurance Plan for Carrots”.

2. The purpose of this plan is to provide for insurance against a loss in the production of carrots resulting from one or more of the perils designated in section 4.

INTERPRETATION

3. In this plan,

(a) “average farm yield” means the average of previous yields of the seeded acreage computed on the basis of acreage production records of the insured person or on such other basis as the Commission approves;

(b) “bushel” means 50 pounds; and

(c) “carrots” means carrots grown for the fresh market.

DESIGNATION OF PERILS

4.—(1) Subject to subsection (2), the following are designated as perils for the purposes of this plan:

1. Drought.
2. Excessive rainfall.
3. Flood.
4. Frost.
5. Hail.
6. Insect infestation.
7. Plant disease.
8. Wind.

(2) This contract does not insure against a loss in the production of carrots in a crop year resulting from insect infestation or plant disease unless the insured person establishes that he followed a recommended control program during the crop year.

5. The crop year for carrots is the period from the 1st day of March in any year to the 31st day of October next following.

CONTRACT OF INSURANCE

6. For the purposes of this plan, the entire contract of insurance for carrots shall be deemed to be composed of,

(a) the contract of insurance in the form prescribed by Regulation 231 of Revised Regulations of Ontario, 1980;

(b) the application for insurance in Form 1;

(c) an endorsement for carrots in Form 2;

(d) the final acreage report in Form 3 for each crop year; and

(e) any amendment to a document referred to in clause (a), (b), (c) or (d) agreed upon in writing.

7.—(1) An application for insurance shall,

(a) be in Form 1;

(b) be accompanied by a premium deposit of at least \$100; and

(c) be filed with the Commission not later than the 1st day of May in the crop year in respect of which it is made.

(2) Premium deposits prescribed by clause (1) (b) shall not be refundable unless no acreage is planted to carrots.

DURATION OF CONTRACT

8.—(1) A contract of insurance shall be in force for the crop year in respect of which it is made, and shall

continue in force for each crop year thereafter until it is cancelled by the insured person or the Commission in the manner prescribed by subsection (2) or is terminated in accordance with the regulations.

(2) A contract of insurance may be cancelled by the insured person or the Commission by notice in writing to the other party on or before the 1st day of May in the crop year during which the cancellation is to be effective.

COVERAGE

9.—(1) Subject to subsections (2), (3) and (4), the coverage provided under a contract of insurance shall be 70 per cent of the average farm yield in bushels of the total acreage seeded to carrots by the insured person in accordance with the regulations.

(2) The coverage provided under subsection (1) shall be increased following each consecutive no claim year as follows:

1. Following the first no claim year, to 73 per cent of the average farm yield.
2. Following the second no claim year, to 76 per cent of the average farm yield.
3. Following the third no claim year, to 78 per cent of the average farm yield.
4. Following the fourth no claim year, to a maximum of 80 per cent of the average farm yield.

(3) The coverage provided under subsections (1) and (2) shall be decreased for claim years from the insured level in reverse progression to that prescribed by subsection (2), except that where a claim occurs in a year where the coverage is 70 per cent, the coverage shall be reduced to a minimum of 65 per cent.

(4) Where, in any year, a claim is paid in an amount less than one-half the total premium for that year, the coverage for the following year shall remain unchanged.

(5) The number of bushels determined under subsections (1), (2) and (3) constitutes the total guaranteed production under a contract of insurance.

10. For the purposes of this plan, the established price for carrots is \$1.75 per bushel.

11. The maximum amount for which the Commission is liable for a loss in production under a contract of insurance shall be the amount obtained by multiplying the total guaranteed production determined under section 9 by the established price per bushel prescribed in section 10.

PREMIUMS

12.—(1) Subject to subsection (2), the total premium is \$80 per acre.

(2) Notwithstanding subsection (1), the minimum premium payable by an insured person in each crop year is \$100.

(3) The premium prescribed by subsection (1) includes payments in respect of premiums made by the Government of Canada under the *Crop Insurance Act* (Canada).

13.—(1) Where a contract of insurance is in force, a premium shall be paid in respect of each crop year in which the insured person seeds acreage to carrots.

(2) Where a premium is payable in respect of a crop year, the insured person shall pay the premium, less the premium deposit prescribed by subsection (3), to the Commission at the time he files the final acreage report prescribed by section 14.

(3) Where a renewal premium is payable in respect of a crop year, the insured person shall, not later than the 1st day of May in the crop year, pay a premium deposit in accordance with clause 7 (1) (b).

FINAL ACREAGE REPORT

14.—(1) Every insured person shall file with the Commission in each crop year a final acreage report in Form 3 within ten days after the seeding of acreage to carrots is complete.

(2) A final acreage report filed with the Commission shall not be amended without the consent in writing of the Commission.

15.—(1) The Commission may revise the final acreage report in any or all respects and adjust the premium accordingly and, in such case, shall notify the insured person in writing forthwith respecting such revision and adjustment.

(2) The insured person shall be deemed to have agreed with the revision of the final acreage report and adjustment of premium made by the Commission under subsection (1) unless, within ten days from the mailing or delivery of the notification by the Commission, he notifies the Commission in writing that he rejects such revision and adjustment.

(3) Where the Commission receives notice from an insured person under subsection (2), it shall notify the insured person in writing that the contract of insurance does not apply for the crop year in respect of which the final acreage report was filed.

(4) A final acreage report revised under this section shall, failing notice under subsection (2), constitute the final acreage report for the crop year.

16.—(1) Where an insured person in any crop year fails to file a final acreage report in the form and manner prescribed by this Regulation, the Commission may,

(a) prepare the final acreage report; or

- (b) declare the insured acreage to be nil.
- (2) Where the Commission prepares a final acreage report under subsection (1), the Commission shall mail or deliver a copy of the report to the insured person.
- (3) Every insured person shall pay the premium for the crop year in respect of which a final acreage report

is prepared by the Commission within ten days from the mailing or delivery to him of a copy of the report.

FINAL DATE FOR SEEDING

17. For the purposes of this plan, the final date for seeding in a crop year is the 30th day of June or such other date as may be determined from time to time by the Commission. O. Reg. 217/82, Sched.

(b) the abandonment or destruction of the insured crop or any part thereof.

EVALUATION OF LOSS

2. For the purposes of determining the loss in production of carrots in a crop year and the indemnity payable therefor, the value of the crop shall progress through the stages prescribed in paragraphs 3 and 4.

STAGE 1

3.—(1) Stage 1 comprises the period from the date on which the planting of acreage to carrots is completed to and including the 30th day of June in the crop year.

(2) Where loss or damage to three acres or more of the insured crop occurs in Stage 1, the Commission, upon application therefor in writing by the insured person, may consent in writing to,

(a) the replanting of the damaged acreage, provided that the replanting is completed not later than the 30th day of June; or

(b) the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage.

(3) Where damaged acreage is replanted to carrots in accordance with clause (2) (a), the Commission shall pay an indemnity of \$300 for each acre replanted and the contract of insurance shall continue to apply to such acreage.

(4) Where the damaged acreage is used for any other purpose or the insured crop is abandoned or destroyed in accordance with clause (2) (b), the Commission shall pay an indemnity of \$300 per acre and the contract of insurance shall terminate with respect to such acreage.

(5) Notwithstanding any application made in writing by the insured person under this paragraph, the Commission may, where loss or damage occurs in Stage 1, notify the insured person in writing that it intends to terminate the insurance coverage on such damaged acreage and, in such case, no further indemnity shall be payable in respect of the damaged acreage.

STAGE 2

4.—(1) Stage 2 commences on the 1st day of July in the crop year and, with respect to any part of the planted acreage, ends on completion of harvesting.

(2) Where loss or damage occurs in Stage 2, the Commission, upon application therefor in writing by the insured person, may consent in writing to the use of the damaged acreage for any other purpose or to the abandonment or destruction of the insured crop on such damaged acreage and, in such case, the Commission shall determine the number of damaged acres and the potential production thereof, and the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying the amount by which the guaranteed production of the damaged acreage exceeds the potential production determined therefor by the established price per bushel.

(3) Where damaged acreage is not used for any other purpose or the crop thereon is not abandoned or destroyed after the Commission has consented thereto, the amount of loss calculated under subparagraph (2) shall not be taken into account in the final adjustment of loss.

(4) Where the actual production of the acreage harvested is less than the guaranteed production for such acreage, the amount of loss that shall be taken into account in the final adjustment of loss in respect of the total planted acreage shall be calculated by multiplying the difference between the guaranteed production and the actual production by the established price per bushel.

(5) Notwithstanding subparagraph (4), the production from any acreage sold as bunching carrots shall be deemed to be the guaranteed production for such acreage.

NOTICE OF LOSS OR DAMAGE

5. Where loss or damage to the insured crop results from one or more of the perils insured against and the damage was occasioned at a readily ascertainable time, the insured person shall notify the Commission forthwith by telephone and shall confirm in writing within twenty-four hours of such time.

FINAL ADJUSTMENT OF LOSS FOR TOTAL PLANTED ACREAGE

6.—(1) The indemnity payable with respect to the total planted acreage in the final adjustment of loss shall be the sum of all Stage 1 and Stage 2 loss calculations applicable to such acreage but, subject to subparagraph (2), where,

- (a) the actual production of any harvested acreage; or
- (b) the potential production of any unharvested acreage,

exceeds the guaranteed production of such acreage, the indemnity otherwise payable shall be reduced by the amount obtained by multiplying such excess by the established price per bushel.

(2) Notwithstanding subparagraph (1), no indemnities paid in Stage 1 shall be subject to reduction under this paragraph.

(3) In no case shall indemnity be paid for acreage in excess of the total insured acreage.

DAMAGE AFTER HARVEST

7. No indemnity shall be paid in respect of any loss or damage suffered by the insured crop after combining and in no case shall any indemnity be paid with respect to carrots in storage.

INCORRECT ACREAGE IN FINAL ACREAGE REPORT

8.—(1) Where the actual planted acreage of carrots in a crop year is less than the planted acreage declared on the final acreage report, the total guaranteed production and the amount of insurance shall be reduced proportionately.

(2) Where the actual planted acreage of carrots in a crop year exceeds the planted acreage declared on the final acreage report, production from the total planted acreage shall be counted and there shall be no increase in the total guaranteed production or the maximum amount of indemnity payable.

IN WITNESS WHEREOF The Crop Insurance Commission of Ontario has caused this endorsement to be signed by its general manager but the same shall not be binding upon the Commission until countersigned by a duly authorized representative thereof.

ONTARIO ENERGY BOARD

NOTICE OF RATE APPLICATION

TAKE NOTICE that The Consumers' Gas Company Ltd., also carrying on business as Brockville Gas, Grimsby Gas, Ottawa Gas and Provincial Gas, has filed with the Board a main rate application dated March 23, 1982. All customers of the Applicant are affected.

The Applicant requests interim and permanent rate relief to recover:

- (a) about \$83 million to prevent a revenue deficiency occurring in its 1983 fiscal year in relation to the fair rate of return, representing a rate increase of about 2¢ per cubic metre for residential customers and lesser amounts for other customers; and
- (b) increases in the cost of gas, taxes and other costs during the course of the main application.

The Applicant proposes a new rate design for residential heating customers. It includes a fixed charge of about \$19 per month but on an annual basis would result in virtually no change in the bill for a residential heating customer with average consumption.

This notice does not constitute service but is published as a matter of record only. The Board will subsequently fix dates for hearing.

Dated at Toronto, this 13th day of April, 1982.

Treasurer's Sale of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

Environmental Assessment Act

NOTICE OF APPROVAL TO PROCEED WITH THE UNDERTAKING

RE: A Class Environmental Assessment for Access Roads to MNR Facilities

Proponent: Ministry of Natural Resources

E.A. File No. 2-77-0005-000

TAKE NOTICE that the period for requiring a hearing, provided for in the *Notice of Acceptance of the Environmental Assessment* for the undertaking, expired on March 31, 1982. I have received no notices requiring a hearing by the Environmental Assessment Board with respect to approval to proceed with the undertaking.

I have considered the purpose of the Act and the class environmental assessment of the undertaking as accepted by me.

Accordingly, I hereby give approval to proceed with the undertaking subject to the attached Conditions of Approval.

REASONS:

The reasons for giving approval are:

- (1) I received no notices requiring a hearing by the Environmental Assessment Board after giving the *Notice of Completion of Environmental Assessment Review* dated July 27, 1981 nor after giving the *Notice of Acceptance of the Environmental Assessment*, on March 11, 1982. I am not aware of any outstanding issues with respect to this undertaking which suggest that a hearing should be called.
- (2) The class environmental assessment together with the Government review and the attached Conditions sufficiently fulfill the purpose of the *Environmental Assessment Act*, which is the betterment of the people of the whole or any part of Ontario by providing for the protection, conservation and wise management in Ontario of the environment.

Dated at Toronto, the 1st day of April, 1982.

K. C. NORTON,
Minister of the Environment,
135 St. Clair Avenue West,
14th Floor,
Toronto, Ontario M4V 1P5.

Approved by
O.C. No. 752/82

CONDITIONS OF APPROVAL FOR ACCESS ROADS TO MNR FACILITIES

EA File No. 2-77-0005-000

Except as modified by any of the following conditions or a subsequent amendment to the class environmental assessment made in accordance with the Act, the proponent shall comply with all of the provisions of the class environmental assessment, Access Roads to MNR Facilities, including the Fisheries Management Program Information Support

Document, the Field Environmental Planning Procedure and the Environmental Quality Implementation Handbook, as accepted by the Minister of the Environment which provisions are hereby incorporated in this approval.

- 1(a) In cases where an EA approval under the Act for an undertaking for which an individual EA has been submitted and this class EA approval are in conflict, then the individual EA approval prevails.
- (b) Subject to condition 1(a), where a project which is part of the undertaking approved hereby or the implementation of an undertaking requires that some activity, for which another EA approval has been issued, be conducted, the activity shall be carried out in accordance with the other EA approval as well as this class EA approval.
- (c) In these conditions, the phrase "EA approval" means the EA for an undertaking as accepted and any conditions imposed on the approval.
- 2(a) Subject to Condition 2(b) MNR may make revisions to the class EA only in a manner consistent with section 17 of the Act;
- (b) MNR may make changes to the class EA only if otherwise provided for in any other conditions applying to the approval of the class EA;
- (c) A copy of the class environmental assessment along with a list of the conditions of approval shall be distributed to all Ministry of Natural Resources' Regional Offices and its Main Office. In addition, within 6 months of the effective date of this approval, MNR shall provide to the Environmental Approvals Branch of MOE a copy of the bulletins which direct their field organization in the application of the approved class EA. Such bulletins as well as the class environmental assessment and conditions will be made available to the public for inspection upon request at all MNR Regional Offices as well as their Main Office.
3. MNR shall carry out a re-evaluation of the class EA, including the Environmental Quality Implementation Handbook, covered by this approval, make appropriate revisions, and submit the revised environmental assessment for review under the Act by December 31st of the fourth complete year after approval.

This approval shall terminate on the earlier of:

- (a) the date on which approval of an undertaking under a new EA submitted as a result of the re-evaluation required by this condition is given under the Act, and
- (b) the latter of (i) January 1st of the fifth complete year after approval; and, (ii) such later date as the Minister of the Environment specifies by Notice in writing to the proponent and in THE ONTARIO GAZETTE.
4. In emergency situations, in addition to consulting with the appropriate Regional Director

of MOE, MNR is required to notify the Environmental Approvals Branch of MOE after the emergency situation has been dealt with and indicate why the works carried out were necessary, whether further work will be undertaken and, if so, how will MNR comply with the EA approval. An emergency situation may exist by reason of:

- (i) danger to the health or safety of any person;
 - (ii) impairment or immediate risk of impairment of the quality of the natural environmental for any use that can be made of it; or,
 - (iii) injury or damage or immediate risk of injury or damage to any property or to any plant or animal life.
- 5(a) The obtaining of options or agreements of purchase and sale which are conditional on complying with the Act to acquire property for projects carried out under this approval shall be made only after review of the project proposal by the District Manager as required by Step 1 of FEPP.
- (b) The mere ownership of property or interests in property by MNR will not be a factor considered by the District manager in the identification and evaluation of the project proposed and its alternatives as required in FEPP.
- (c) Land acquisition for projects carried out under this approval shall be made only after termination of the public review, following receipt of final notification as required in Step 3 of FEPP.
- 6(a) Where planning for a project has commenced but has not been completed (i.e., project approved by the District Manager), at the time when this approval is granted, the proponent shall determine the equivalent stage of the Field Environmental Planning Procedure (FEPP) and from that stage onward carry out planning in accordance with the FEPP subject to the conditions of this approval.
- (b) Where planning for a project as described in the Condition 6(a) is not completed by the effective date of this approval, the proponent shall, wherever possible, issue first notice to the government ministries and agencies and the public as outlined in the FEPP and according to the terms and requirements of Condition 9.
- (c) Where an activity for which planning has been completed by the effective date of this approval is carried out after the date, the proponent shall ensure that a notice is issued to those people in government ministries and agencies who would have received first notice in accordance with the provisions of Step 1 of FEPP. Such notice shall include a precise description of the project, its location and the time at which it will be carried out. The notice will also describe where additional information in regards to the project may be obtained. A list of those projects meeting the provisions of this condition is to be submitted to the Environmental Approvals

Branch of MOE within three months from the date of this approval.

- 7(a) The staff of the Ministry of Natural Resources shall engage in a consultative process with each of the government reviewers who express an interest in so doing or other appropriate persons in that reviewer's ministry and with other appropriate agencies in order to improve field construction practices.
- (b) MNR shall develop a monitoring program to improve MNR's range of construction methods, to further identify their potential environmental effects, to expand the range of abatement methods available to minimize adverse environmental effects and to identify the circumstances under which selected methods will be used. MNR shall advise the Environmental Approvals Branch, from time to time, but at least annually as to the progress of this monitoring.
- (c) The proponent shall ensure that the appropriate provisions of the EQIH as submitted or revised pursuant to these conditions are reflected in the plans and contract specifications for all projects carried out under this EA approval. The proponent further shall be responsible for ensuring, by site inspection and such other means as may be necessary, that the construction of any part of the undertaking covered by this approval is carried out in accordance with the plans and specifications.
- (d) MNR may make revisions to improve an EQIH already submitted to MOE, provided that such revisions are accepted by the Environmental Approvals Branch of MOE and such acceptance is confirmed by written notice to MNR, which notice and accepted revisions shall also be filed in the Public Board.
8. In respect of the abandonment of projects or activities subject to this environmental assessment approval, MNR shall follow the provisions of the FEPP for abandonment if the District Manager or MNR determines there is potential public concern over the abandonment or there are significant or unusual environmental impacts associated with the abandonment.
- 9(a) The issuance of first notification of the project proposal as required by Step 1 of FEPP must be issued to affected local, regional, district or metropolitan municipalities and must also be issued to Ministries and agencies of the Ontario Government as follows: the affected Ministry of the Environment Regional Office, the Niagara Escarpment Commission when the proposal is in an area of Niagara Escarpment Commission Proposed Plan; the Ministry of Agriculture and Food when there are possible agricultural impacts; the Ministry of Culture and Recreation, and the Ministry of Industry and Tourism. Also, notice shall be issued to the Regional Office of the Federal Department of Indian and Northern Development (DINA) and

the Band Council when any Indian reserve may be affected.

The proponent shall also give public notice to interest groups (provincial, regional and local) which may be known to have concerns regarding certain issues, types of projects or geographical areas, where he considers it appropriate to do so.

In addition any individual, group or agency may, by notice in writing to the Land Use Co-ordination Branch of the Ministry of Natural Resources, request that their name be added or deleted from the mailing list to receive first notice with respect to all or certain types of projects in the Class. MNR shall accommodate *all reasonable* requests to this effect.

- (b) The first notice to Ontario Government Ministries, agencies and to the public must contain the information, as stated by MNR in Step 1 of FEPP, as well as the following information:
 - A statement which describes the procedures for involvement of the public and Government Ministries and agencies under the Class EA process, including the right of any person (as defined in s. 1 (i) of the *EA Act*) to request that an individual environmental assessment be carried out on the proposal, i.e., “bump-up” provisions.
 - A description of any related activities of which the proponent is aware, whether or not such activities are to be implemented at another time or at the same time as the project and an indication as to whether these activities are:
 - under other Class EAs
 - under exemption orders
 - not subject to the Act
 - not exempt and requiring an individual EA
 - not exempt but appropriate for exemption because of insignificant environmental effects
- (c) Where because of the numbers of people involved or for any other reason, it is impractical to give a first notice to everyone personally, MNR may adopt another means of giving notice and MNR shall describe with the first notice to the MOE Region the procedure MNR has used for giving notice.
10. As part of Step 2 of FEPP, all efforts made by MNR in soliciting input from persons external to MNR regarding particular projects shall be documented and included in the environmental assessment file, as maintained under Step 6 of FEPP, for each project.
- 11(a) When giving final public notification to provincial ministries, agencies and the public that a preferred alternative has been chosen, MNR shall notify any such party which has indicated a continued interest in the project as well as the directly affected public, as determined by the District Manager of the appropriate MNR District Office. Final notification will include the location and description of the selected project, and will advise that comments on the project should be received by a specific person by a given date and that additional information on the project is available at specific locations.
- (b) Where MNR is required by this approval or any condition to give notice to a number of individuals or groups of people who have not provided MNR with specific addresses for such purposes, or where the number of such persons makes it impractical to give personal notice to all of them, MNR may give notice by publication or some method other than personal service.
- (c) At the time of issuing final notice pursuant to Step 3 of the FEPP, the environmental assessment file maintained for the project as specified in the FEPP will contain a description of the project, the location of the project and the proposed mitigation measures.
- (d) If MNR decides, after notice has been given at Step 1 of FEPP, that the preferred alternative should be changed to an alternative outside the original study area and the new area would have required that notice be given to additional people at step 1, MNR shall revert to Step 1 and issue a public notice to include those now affected.
- (e) MNR shall normally award a contract or otherwise implement a project only after 30 days have expired from the date final notice was issued. Where, in special circumstances, MNR considers it appropriate to extend or shorten the 30 day period, MNR may do so provided that all parties required to receive notice are given notice and sufficient opportunity to exercise their prerogative to request an individual EA (to “bump-up”) and, where possible, shall give notice of the change in review period at the time of giving first notice.
- 12(a) If MNR, after notice has been given at Step 3 of FEPP, decides to make a significant modification to the project plan, MNR shall issue notice again to those who were previously given final notice and to any additional persons who may be affected by the modification, as determined by MNR, advising people of the modification and requesting their comments in accordance with the procedures and conditions applicable to Step 3.
- (b) When issuing the memorandum to the Ministry of the Environment as outlined in Step 5 of FEPP, the memorandum shall also include the location of the selected project, a description of the significant environmental effects and the proposed mitigation procedures. This memorandum is to be sent to both the relevant Region or Regions and the Environmental Approvals Branch of the Ministry of the Environment.
13. The environmental assessment file maintained under Step 6 of FEPP for each project shall

include in addition to those items listed in Step 6 of FEPP, the following:

- Minutes of meetings including relevant data that was considered at the meetings, evaluations and decisions; and,
- The environmental inventory, including all relevant data, environmental concerns and recommendations; and,
- Records of any oral or written public submissions in response to the public notices.

NOTICE OF APPROVAL TO PROCEED WITH THE UNDERTAKING

RE: A Class Environmental Assessment for Dams and Dykes

Proponent: Ministry of Natural Resources

E.A. File No. 2-78-0003-000

TAKE NOTICE that the period for requiring a hearing, provided for in the *Notice of Acceptance of the Environmental Assessment* for the undertaking, expired on March 31, 1982. I have received no notices requiring a hearing by the Environmental Assessment Board with respect to approval to proceed with the undertaking.

I have considered the purpose of the Act and the class environmental assessment of the undertaking as accepted by me.

Accordingly, I hereby give approval to proceed with the undertaking subject to the attached Conditions of Approval.

REASONS:

The reasons for giving approval are:

- (1) I received no notices requiring a hearing by the Environmental Assessment Board after giving the *Notice of Completion of Environmental Assessment Review* dated July 27, 1981 nor after giving the *Notice of Acceptance of the Environmental Assessment*, on March 11, 1982. I am not aware of any outstanding issues with respect to this undertaking which suggest that a hearing should be called.
- (2) The class environmental assessment together with the Government review and the attached Conditions sufficiently fulfill the purpose of the *Environmental Assessment Act*, which is the betterment of the people of the whole or any part of Ontario by providing for the protection, conservation and wise management in Ontario of the environment.

Dated at Toronto, the 1st day of April, 1982.

K. C. NORTON,
Minister of the Environment,
135 St. Clair Avenue West,
14th Floor,
Toronto, Ontario M4V 1P5.

Approved by
O.C. No. 753/82

CONDITIONS OF APPROVAL FOR DAMS AND DYKES

EA File No. 2-78-0003-000

Except as modified by any of the following conditions or a subsequent amendment to the class environmental assessment made in accordance with the Act, the proponent shall comply with all of the provisions of the class environmental assessment, Dams and Dykes, including the Fisheries Management Program Information Support Document, the Field Environmental Planning Procedure and the Environmental Quality Implementation Handbook, as accepted by the Minister of the Environment which provisions are hereby incorporated by reference in this approval.

- 1(a) In cases where an EA approval under the Act for an undertaking for which an individual EA has been submitted and this class EA approval are in conflict, then the individual EA approval prevails.
- (b) Subject to condition 1(a), where a project which is part of the undertaking approved hereby or the implementation of an undertaking requires that some activity, for which another EA approval has been issued, be conducted, the activity shall be carried out in accordance with the other EA approval as well as this class EA approval.
- (c) In these conditions, the phrase "EA approval" means the EA for an undertaking as accepted and any conditions imposed on the approval.
- 2(a) Subject to Condition 2(b) MNR may make revisions to the class EA only in a manner consistent with section 17 of the Act;
- (b) MNR may make changes to the class EA only if otherwise provided for in any other conditions applying to the approval of the class EA;

In addition, within 6 months of the effective date of this approval, MNR shall provide to the Environmental Approvals Branch of MOE a copy of the bulletins which direct their field organization in the application of the approved class EA. Such bulletins as well as the class environmental assessment and conditions will be made available to the public for inspection upon request at all MNR Regional Offices as well as their Main Office.
3. MNR shall carry out a re-evaluation of the class EA, including the Environmental Quality Implementation Handbook, covered by this approval, make appropriate revisions, and submit the revised environmental assessment for review under the Act by December 31st of the fourth complete year after approval.

This approval shall terminate on the earlier of:

- (a) the date on which approval of an undertaking under a new EA submitted as a result of the re-evaluation required by this condition is given under the Act, and

- (b) the latter of (i) January 1st of the fifth complete year after approval; and, (ii) such later date as the Minister of the Environment specifies by Notice in writing to the proponent and in THE ONTARIO GAZETTE.
4. In emergency situations, in addition to consulting with the appropriate Regional Director of MOE, MNR is required to notify the Environmental Approvals Branch of MOE after the emergency situation has been dealt with and indicate why the works carried out were necessary, whether further work will be undertaken and, if so, how will MNR comply with the EA approval. An emergency situation may exist by reason of:
- (i) danger to the health or safety of any person;
 - (ii) impairment or immediate risk of impairment of the quality of the natural environmental for any use that can be made of it; or,
 - (iii) injury or damage or immediate risk of injury or damage to any property or to any plant or animal life.

- (c) Land acquisition for projects carried out under this approval shall be made only after termination of the public review, following receipt of final notification as required in Step 3 of FEPP.
- 6(a) Where planning for a project has commenced but has not been completed (i.e., project approved by the District Manager), at the time when this approval is granted, the proponent shall determine the equivalent stage of the Field Environmental Planning Procedure (FEPP) and from that stage onward carry out planning in accordance with the FEPP subject to the conditions of this approval.
- (b) Where planning for a project as described in the Condition 6(a) is not completed by the effective date of this approval, the proponent shall, wherever possible, issue first notice to the government ministries and agencies and the public as outlined in the FEPP and according to the terms and requirements of Condition 9.
- (c) Where an activity for which planning has been completed by the effective date of this approval is carried out after the date, the proponent shall ensure that a notice is issued to those people in government ministries and agencies who would have received first notice in accordance with the provisions of Step 1 of FEPP. Such notice shall include a precise description of the project, its location and the time at which it will be carried out. The notice will also describe where additional information in regards to the project may be obtained. A list of those projects meeting the provisions of this condition is to be submitted to the Environmental Approvals Branch of MOE within three months from the date of this approval.
- 7(a) The staff of the Ministry of Natural Resources shall engage in a consultative process with each of the government reviewers who express an interest in so doing or other appropriate persons in that reviewer's ministry and with other appropriate agencies in order to improve field construction practices.
- (b) MNR shall develop a monitoring program to improve MNR's range of construction methods, to further identify their potential environmental effects, to expand the range of abatement methods available to minimize adverse environmental effects and to identify the circumstances under which selected methods will be used. MNR shall advise the Environmental Approvals Branch, from time to time, but at least annually as to the progress of this monitoring.
- (c) The proponent shall ensure that the appropriate provisions of the EQIH as submitted or revised pursuant to these conditions are reflected in the plans and contract specifications for all projects carried out under this EA approval. The proponent further shall be responsible for ensuring, by site inspection and such other means as may be necessary, that the construction of any part of the undertaking covered by this approval is carried out in accordance with the plans and specifications.
- (d) MNR may make revisions to improve an EQIH already submitted to MOE, provided that such revisions are accepted by the Environmental Approvals Branch of MOE and such acceptance is confirmed by written notice to MNR, which notice and accepted revisions shall also be filed in the Public Record.
8. In respect of the abandonment of projects or activities subject to this environmental assessment approval, MNR shall follow the provisions of the FEPP for abandonment if the District Manager of MNR determines there is potential public concern over the abandonment or there are significant or unusual environmental impacts associated with the abandonment.
- 9(a) The issuance of first notification of the project proposal as required by Step 1 of FEPP must be issued to affected local, regional, district or metropolitan municipalities and must be issued to Ministries and agencies of the Ontario Government as follows: the affected Ministry of the Environment Regional Office, the Niagara Escarpment Commission when the proposal is in an area of Niagara Escarpment Commission

Also, notice shall be issued to the Regional Office of the Federal Department of Indian and Northern Development (DINA) and the Band Council when any Indian reserve may be affected.

The proponent shall also give public notice to interest groups (provincial, regional and local) which may be known to have concerns regarding certain issues, types of projects or geographical areas, where he considers it appropriate to do so.

In addition any individual, group or agency may, by notice in writing to the Land Use Co-ordination Branch of the Ministry of Natural Resources, request that their name be added or deleted from the mailing list to receive first notice with respect to all or certain types of projects in the Class. MNR shall accommodate *all reasonable* requests to this effect.

 - under exemption orders
 - not subject to the Act
 - not exempt and requiring an individual EA
 - not exempt but appropriate for exemption because of insignificant environmental effects

- (c) Where because of the numbers of people involved or for any other reason, it is impractical to give a first notice to everyone personally, MNR may adopt another means of giving notice and MNR shall describe with the first notice to the MOE Region the procedure MNR has used for giving notice.

10. As part of Step 2 of FEPP, all efforts made by MNR in soliciting input from persons external to MNR regarding particular projects shall be documented and included in the environmental

assessment file, as maintained under Step 6 of FEPP, for each project.

- 11(a) When giving final public notification to provincial ministries, agencies and the public that a preferred alternative has been chosen, MNR shall notify any such party which has indicated a continued interest in the project as well as the directly affected public, as determined by the District Manager of the appropriate MNR District Office. Final notification will include the location and description of the selected project, and will advise that comments on the project should be received by a specific person by a given date and that additional information on the project is available at specific locations.
- (b) Where MNR is required by this approval or any condition to give notice to a number of individuals or groups of people who have not provided MNR with specific addresses for such purposes, or where the number of such persons makes it impractical to give personal notice to all of them, MNR may give notice by publication or some method other than personal service.

- (d) If MNR decides, after notice has been given at Step 1 of FEPP, that the preferred alternative should be changed to an alternative outside the original study area and the new area would have required that notice be given to additional people at Step 1, MNR shall revert to Step 1 and issue a public notice to include those now affected.
- (e) MNR shall normally award a contract or otherwise implement a project only after 30 days have expired from the date final notice was issued. Where, in special circumstances, MNR considers it appropriate to extend or shorten the 30 day period, MNR may do so provided that all parties required to receive notice are given notice and sufficient opportunity to exercise their prerogative to request an individual EA (to “bump-up”) and, where possible, shall give notice of the change in review period at the time of giving first notice.
- 2(a) If MNR, after notice has been given at Step 3 of FEPP, decides to make a significant modification to the project plan, MNR shall issue notice again to those who were previously given final notice and to any additional persons who may be affected by the modification, as determined by MNR, advising people of the modification and requesting their comments in accordance with the procedures and conditions applicable to Step 3.

Except as modified by any of the following conditions or a subsequent amendment to the class environmental assessment made in accordance with the Act, the proponent shall comply with all of the provisions of the class environmental assessment, Fish Stocking in New Waters, including the Fisheries Management Program Information Support Document, and the Field Environmental Planning Procedure, as accepted by the Minister of the Environment which provisions are hereby incorporated by reference in this approval.

- 1(a) In cases where an EA approval under the Act for an undertaking for which an individual EA has been submitted and this class EA approval are in conflict, then the individual EA approval prevails.
- (b) Subject to condition 1(a), where a project which is part of the undertaking approved hereby or the implementation of an undertaking requires that some activity, for which another EA approval has been issued, be conducted, the activity shall be carried out in accordance with the other EA approval as well as this class EA approval.
- (c) In these conditions, the phrase "EA approval" means the EA for an undertaking as accepted and any conditions imposed on the approval.
- 2(a) Subject to Condition 2(b) MNR may make revisions to the class EA only in a manner consistent with section 17 of the Act;

Such bulletins as well as the class environmental assessment and conditions will be made available to the public for inspection upon request at all MNR Regional Offices as well as their Main Office.
3. MNR shall carry out a re-evaluation of the class EA covered by this approval, make appropriate revisions, and submit the revised environmental assessment for review under the Act by December 31st of the fourth complete year after approval.

- (b) The proponent must ensure protection of existing water quality by complying with the surface water policies set out in the Ministry of the Environment's publication "Water Management Goals, Policies, Objectives and Implementation Procedures" (November 1978). Where it is anticipated by the District Manager that an activity will significantly deteriorate the existing water quality, the appropriate Regional Office of the Ministry of the Environment shall be notified.

- 15(a) MNR shall prepare a handbook dealing with field construction practices and mitigation measures with respect to the undertaking approved hereby and file it with the Environmental Approvals Branch of the MOE within one year

of the date of this approval. A handbook prepared for the purpose of this condition may apply to other classes of undertakings in addition to the one approved hereby, and shall specify to which class or classes of undertakings it applies.

- (b) A handbook prepared for the purpose of condition 15(a) shall incorporate the results of the monitoring program required by condition 7(b), and the results of the consultation required by condition 7(a), and shall take account of the concerns set out in this review.

NOTICE OF APPROVAL TO PROCEED WITH THE UNDERTAKING

RE: A Class Environmental Assessment for Fishways

Proponent: Ministry of Natural Resources

E.A. File No. 2-79-0012-000

TAKE NOTICE that the period for requiring a hearing, provided for in the *Notice of Acceptance of the Environmental Assessment* for the undertaking, expired on March 31, 1982. I have received no notices requiring a hearing by the Environmental Assessment Board with respect to approval to proceed with the undertaking.

I have considered the purpose of the Act and the class environmental assessment of the undertaking as accepted by me.

Accordingly, I hereby give approval to proceed with the undertaking subject to the attached Conditions of Approval.

REASONS:

The reasons for giving approval are:

- (1) I received no notices requiring a hearing by the Environmental Assessment Board after giving the *Notice of Completion of Environmental Assessment Review* dated July 27, 1981 nor after giving the *Notice of Acceptance of the Environmental Assessment*, on March 11, 1982. I am not aware of any outstanding issues with respect to this undertaking which suggest that a hearing should be called.
- (2) The class environmental assessment together with the Government review and the attached Conditions sufficiently fulfill the purpose of the *Environmental Assessment Act*, which is the betterment of the people of the whole or any part of Ontario by providing for the protection,

conservation and wise management in Ontario of the environment.

Dated at Toronto, the 1st day of April, 1982.

K. C. NORTON,
Minister of the Environment,

O.C. No. 757/82

CONDITIONS OF APPROVAL FOR FISHWAYS

EA File No. 2-79-0012-000

Except as modified by any of the following conditions or a subsequent amendment to the class environmental assessment made in accordance with the Act, the proponent shall comply with all of the provisions of the class environmental assessment, Fishways, including the Fisheries Management Program Information Support Document and the Field Environmental Planning Procedure, as accepted by the Minister of the Environment which provisions are hereby incorporated by reference in this approval.

- 1(a) In cases where an EA approval under the Act for an undertaking for which an individual EA has been submitted and this class EA approval are in conflict, then the individual EA approval prevails.
- (b) Subject to condition 1(a), where a project which is part of the undertaking approved hereby or the implementation of an undertaking requires that some activity, for which another EA approval has been issued, be conducted, the activity shall be carried out in accordance with the other EA approval as well as this class EA approval.
- (c) In these conditions, the phrase "EA approval" means the EA for an undertaking as accepted and any conditions imposed on the approval.
- 2(a) Subject to Condition 2(b) MNR may make revisions to the class EA only in a manner consistent with section 17 of the Act;
- (b) MNR may make changes to the class EA only if otherwise provided for in any other conditions applying to the approval of the class EA;
- (c) A copy of the class environmental assessment along with a list of the conditions of approval shall be distributed to all Ministry of Natural Resources' Regional Offices and its Main Office. In addition, within 6 months of the effective date of this approval, MNR shall provide to the Environmental Approvals Branch of MOE a copy of the bulletins which direct their field organization in the application of the approved class EA. Such bulletins as well as the class environmental assessment and conditions will be made available to the public for inspection upon request at all MNR Regional Offices as well as their Main Office.
3. MNR shall carry out a re-evaluation of the class EA, including the Environmental Quality Implementation Handbook, covered by this

approval, make appropriate revisions, and submit the revised environmental assessment for review under the Act by December 31st of the fourth complete year after approval.

This approval shall terminate on the earlier of:

- (a) the date on which approval of an undertaking under a new EA submitted as a result of the re-evaluation required by this condition is given under the Act, and
 - (b) the latter of (i) January 1st of the fifth complete year after approval; and, (ii) such later date as the Minister of the Environment specifies by Notice in writing to the proponent and in THE ONTARIO GAZETTE.
4. In emergency situations, in addition to consulting with the appropriate Regional Director of MOE, MNR is required to notify the Environmental Approvals Branch of MOE after the emergency situation has been dealt with and indicate why the works carried out were necessary, whether further work will be undertaken and, if so, how will MNR comply with the EA approval. An emergency situation may exist by reason of:
 - (i) danger to the health or safety of any person;
 - (ii) impairment or immediate risk of impairment of the quality of the natural environmental for any use that can be made of it; or,
 - (iii) injury or damage or immediate risk of injury or damage to any property or to any plant or animal life.
 - 5(a) The obtaining of options or agreements of purchase and sale which are conditional on complying with the Act to acquire property for projects carried out under this approval shall be made only after review of the project proposal by the District Manager as required by Step 1 of FEPP.
 - (b) The mere ownership of property or interests in property by MNR will not be a factor considered by the District Manager in the identification and evaluation of the project proposed and its alternatives as required in FEPP.
 - (c) Land acquisition for projects carried out under this approval shall be made only after termination of the public review, following receipt of final notification as required in Step 3 of FEPP.
 - 6(a) Where planning for a project has commenced but has not been completed (i.e., project approved by the District Manager), at the time when this approval is granted, the proponent shall determine the equivalent stage of the Field Environmental Planning Procedure (FEPP) and from that stage onward carry out planning in accordance with the FEPP subject to the conditions of this approval.
 - (b) Where planning for a project as described in the Condition 6(a) is not completed by the effective

date of this approval, the proponent shall, wherever possible, issue first notice to the government ministries and agencies and the public as outlined in the FEPP and according to the terms and requirements of Condition 9.

- (c) Where an activity for which planning has been completed by the effective date of this approval is carried out after the date, the proponent shall ensure that a notice is issued to those people in government ministries and agencies who would have received first notice in accordance with the provisions of Step 1 of FEPP. Such notice shall include a precise description of the project, its location and the time at which it will be carried out. The notice will also describe where additional information in regards to the project may be obtained. A list of those projects meeting the provisions of this condition is to be submitted to the Environmental Approvals Branch of MOE within three months from the date of this approval.

- 7(a) The staff of the Ministry of Natural Resources shall engage in a consultative process with each of the government reviewers who express an interest in so doing or other appropriate persons in that reviewer's ministry and with other appropriate agencies in order to improve field construction practices.

- (b) MNR shall develop a monitoring program to improve MNR's range of construction methods, to further identify their potential environmental effects, to expand the range of abatement methods available to minimize adverse environmental effects and to identify the circumstances under which selected methods will be used. MNR shall advise the Environmental Approvals Branch, from time to time, but at least annually as to the progress of this monitoring.

- (c) The proponent shall ensure that the appropriate provisions of the EQIH as submitted or revised pursuant to these conditions are reflected in the plans and contract specifications for all projects carried out under this EA approval. The proponent further shall be responsible for ensuring, by site inspection and such other means as may be necessary, that the construction of any part of the undertaking covered by this approval is carried out in accordance with the plans and specifications.

- (d) MNR may make revisions to improve an EQIH already submitted to MOE or to any handbook required by condition 15(a) to be submitted and accepted by MOE, provided that such revisions are accepted by the Environmental Approvals Branch of MOE and such acceptance is confirmed by written notice to MNR, which notice and accepted revisions shall also be filed in the Public Board.

- 8. In respect of the abandonment of projects or activities subject to this environmental assessment approval, MNR shall follow the provisions of the FEPP for abandonment if the District Manager or MNR determines there is

potential public concern over the abandonment or there are significant or unusual environmental impacts associated with the abandonment.

- 9(a) The issuance of first notification of the project proposal as required by Step 1 of FEPP must be issued to affected local, regional, district or metropolitan municipalities and must also be issued to Ministries and agencies of the Ontario Government as follows: the affected Ministry of the Environment Regional Office, the Niagara Escarpment Commission when the proposal is in an area of Niagara Escarpment Commission Proposed Plan; the Ministry of Agriculture and Food when there are possible agricultural impacts; the Ministry of Culture and Recreation, and the Ministry of Industry and Tourism. Also, notice shall be issued to the Regional Office of the Federal Department of Indian and Northern Development (DINA) and the Band Council when any Indian reserve may be affected.

The proponent shall also give public notice to interest groups (provincial, regional and local) which may be known to have concerns regarding certain issues, types of projects or geographical areas, where he considers it appropriate to do so.

In addition any individual, group or agency may, by notice in writing to the Land Use Co-ordination Branch of the Ministry of Natural Resources, request that their name be added or deleted from the mailing list to receive first notice with respect to all or certain types of projects in the Class. MNR shall accommodate *all reasonable* requests to this effect.

- (b) The first notice to Ontario Government Ministries, agencies and to the public must contain the information, as stated by MNR in Step 1 of FEPP, as well as the following information:

- A statement which describes the procedures for involvement of the public and Government Ministries and agencies under the Class EA process, including the right of any person (as defined in s. 1 (i) of the *EA Act*) to request that an individual environmental assessment be carried out on the proposal, i.e., "bump-up" provisions.

- A description of any related activities of which the proponent is aware, whether or not such activities are to be implemented at another time or at the same time as the project and an indication as to whether these activities are:

- under other Class EAs
- under exemption orders
- not subject to the Act
- not exempt and requiring an individual EA
- not exempt but appropriate for exemption because of insignificant environmental effects

- (c) Where because of the numbers of people involved or for any other reason, it is impractical to give a first notice to everyone personally, MNR may adopt another means of giving notice and MNR shall describe with the first notice to the MOE Region the procedure MNR has used for giving notice.
- 10. As part of Step 2 of FEPP, all efforts made by MNR in soliciting input from persons external to MNR regarding particular projects shall be documented and included in the environmental assessment file, as maintained under Step 6 of FEPP, for each project.
- 11(a) When giving final public notification to provincial ministries, agencies and the public that a preferred alternative has been chosen, MNR shall notify any such party which has indicated a continued interest in the project as well as the directly affected public, as determined by the District Manager of the appropriate MNR District Office. Final notification will include the location and description of the selected project, and will advise that comments on the project should be received by a specific person by a given date and that additional information on the project is available at specific locations.
- (b) Where MNR is required by this approval or any condition to give notice to a number of individuals or groups of people who have not provided MNR with specific addresses for such purposes, or where the number of such persons makes it impractical to give personal notice to all of them, MNR may give notice by publication or some method other than personal service.
- (c) At the time of issuing final notice pursuant to Step 3 of the FEPP, the environmental assessment file maintained for the project as specified in the FEPP will contain a description of the project, the location of the project and the proposed mitigation measures.
- (d) If MNR decides, after notice has been given at Step 1 of FEPP, that the preferred alternative should be changed to an alternative outside the original study area and the new area would have required that notice be given to additional people at Step 1, MNR shall revert to Step 1 and issue a public notice to include those now affected.
- (e) MNR shall normally award a contract or otherwise implement a project only after 30 days have expired from the date final notice was issued. Where, in special circumstances, MNR considers it appropriate to extend or shorten the 30 day period, MNR may do so provided that all parties required to receive notice are given notice and sufficient opportunity to exercise their prerogative to request an individual EA (to "bump-up") and, where possible, shall give notice of the change in review period at the time of giving first notice.
- 12(a) If MNR, after notice has been given at Step 3 of FEPP, decides to make a significant modification to the project plan, MNR shall issue notice again to those who were previously given final notice and to any additional persons who may be affected by the modification, as determined by MNR, advising people of the modification and requesting their comments in accordance with the procedures and conditions applicable to Step 3.
- (b) When issuing the memorandum to the Ministry of the Environment as outlined in Step 5 of the FEPP, the memorandum shall also include the location of the selected project, a description of the significant environmental effects and the proposed mitigation procedures. This memorandum is to be sent to both the relevant Region or Regions and the Environmental Approvals Branch of the Ministry of the Environment.
- 13. The environmental assessment file maintained under Step 6 of FEPP for each project shall include in addition to those items listed in Step 6 of FEPP, the following:
 - Minutes of meetings including relevant data that was considered at the meetings, evaluations and decisions; and,
 - The environmental inventory, including all relevant data, environmental concerns and recommendations; and,
 - Records of any oral or written public submissions in response to the public notices.
- 14(a) When following the class EA procedure in developing and carrying out a fishway activity, MNR, when considering potential environmental effects under section 6.2.1 and 6.2.2 of the class EA, shall also consider how those additional matters listed in sections 2.2 and 3.2 of the class EA on Dams and Dykes may affect the decisions to be made with respect to the proposed fishway.
- (b) Where a proposed fishway will introduce a fish species to an area where it is neither present naturally nor as a result of previous stocking by MNR or its predecessors, the proponent shall follow the procedures required by the class EA on Fish Stocking in New Waters and its approval as well as the procedures of this class EA and approval.
- 15(a) MNR shall prepare a handbook dealing with field construction practices and mitigation measures with respect to the undertaking approved hereby and file it with the Environmental Approvals Branch of the MOE within one year of the date of this approval. A handbook prepared for the purpose of this condition may apply to other classes of undertakings in addition to the one approved hereby, and shall specify to which class or classes of undertakings it applies.
- (b) A handbook prepared for the purpose of condition 15(a) shall incorporate the results of the monitoring program required by condition 7(b), and the results of the consultation required by condition 7(a), and shall take account of the concerns set out in this review.

- (c) Until the handbook referred to in condition 15(a) is submitted to the Environmental Approvals Branch of MOE, and the EA Branch has accepted the handbook by giving written notice to MNR, the proponent shall follow the provisions in the EQIH for Ponds, Dams and Dykes, Access Roads and/or Access Points and Docks, insofar as it is practical to do so, when carrying out any project to which this approval applies. After such a handbook has been accepted by the EA Branch of MOE, the proponent shall follow it.

After such a handbook has been accepted by the EA Branch of MOE, the proponent shall follow it.

EA File No. 2-80-0003-000

Except as modified by any of the following conditions or a subsequent amendment to the class environmental assessment made in accordance with the Act, the proponent shall comply with all of the provisions of the class environmental assessment, Access Points and Docks, including the Fisheries Management Program Information Support Document, the Field Environmental Planning Procedure and the Environmental Quality Implementation Handbook, as accepted by the Minister of the Environment which provisions are hereby incorporated by reference in this approval.

- 1(a) In cases where an EA approval under the Act for an undertaking for which an individual EA has been submitted and this class EA approval are in conflict, then the individual EA approval prevails.
- (b) Subject to condition 1(a), where a project which is part of the undertaking approved hereby or the implementation of an undertaking requires that some activity, for which another EA approval has been issued, be conducted, the activity shall be carried out in accordance with the other EA approval as well as this class EA approval.

- (c) In these conditions, the phrase "EA approval" means the EA for an undertaking as accepted and any conditions imposed on the approval.
- 2(a) Subject to Condition 2(b) MNR may make revisions to the class EA only in a manner consistent with section 17 of the Act;
- (b) MNR may make changes to the class EA only if otherwise provided for in any other conditions applying to the approval of the class EA;
- (c) A copy of the class environmental assessment along with a list of the conditions of approval shall be distributed to all Ministry of Natural Resources' Regional Offices and its Main Office. In addition, within 6 months of the effective date of this approval, MNR shall provide to the Environmental Approvals Branch of MOE a copy of the bulletins which direct their field organization in the application of the approved class EA. Such bulletins as well as the class environmental assessment and conditions will be made available to the public for inspection upon request at all MNR Regional Offices as well as their Main Office.
3. MNR shall carry out a re-evaluation of the class EA, including the Environmental Quality Implementation Handbook, covered by this approval, make appropriate revisions, and submit the revised environmental assessment for review under the Act by December 31st of the fourth complete year after approval.
- This approval shall terminate on the earlier of:
- (a) the date on which approval of an undertaking under a new EA submitted as a result of the re-evaluation required by this condition is given under the Act, and
 - (b) the latter of (i) January 1st of the fifth complete year after approval; and, (ii) such later date as the Minister of the Environment specifies by Notice in writing to the proponent and in THE ONTARIO GAZETTE.
4. In emergency situations, in addition to consulting with the appropriate Regional Director of MOE, MNR is required to notify the Environmental Approvals Branch of MOE after the emergency situation has been dealt with and indicate why the works carried out were necessary, whether further work will be undertaken and, if so, how will MNR comply with the EA approval. An emergency situation may exist by reason of:
- (i) danger to the health or safety of any person;
 - (ii) impairment or immediate risk of impairment of the quality of the natural environmental for any use that can be made of it; or,
 - (iii) injury or damage or immediate risk of injury or damage to any property or to any plant or animal life.
- 5(a) The obtaining of options or agreements of purchase and sale which are conditional on complying with the Act to acquire property for projects carried out under this approval shall be made only after review of the project proposal by the District Manager as required by Step 1 of FEPP.
- (b) The mere ownership of property or interests in property by MNR will not be a factor considered by the District Manager in the identification and evaluation of the project proposed and its alternatives as required in FEPP.
- (c) Land acquisition for projects carried out under this approval shall be made only after termination of the public review, following receipt of final notification as required in Step 3 of FEPP.
- 6(a) Where planning for a project has commenced but has not been completed (i.e., project approved by the District Manager), at the time when this approval is granted, the proponent shall determine the equivalent stage of the Field Environmental Planning Procedure (FEPP) and from that stage onward carry out planning in accordance with the FEPP subject to the conditions of this approval.
- (b) Where planning for a project as described in the Condition 6(a) is not completed by the effective date of this approval, the proponent shall, wherever possible, issue first notice to the government ministries and agencies and the public as outlined in the FEPP and according to the terms and requirements of Condition 9.
- (c) Where an activity for which planning has been completed by the effective date of this approval is carried out after the date, the proponent shall ensure that a notice is issued to those people in government ministries and agencies who would have received first notice in accordance with the provisions of Step 1 of FEPP. Such notice shall include a precise description of the project, its location and the time at which it will be carried out. The notice will also describe where additional information in regards to the project may be obtained. A list of those projects meeting the provisions of this condition is to be submitted to the Environmental Approvals Branch of MOE within three months from the date of this approval.
- 7(a) The staff of the Ministry of Natural Resources shall engage in a consultative process with each of the government reviewers who express an interest in so doing or other appropriate persons in that reviewer's ministry and with other appropriate agencies in order to improve field construction practices.
- (b) MNR shall develop a monitoring program to improve MNR's range of construction methods, to further identify their potential environmental effects, to expand the range of abatement methods available to minimize adverse environmental effects and to identify the circumstances under which selected methods will be used. MNR shall advise the Environmental Approvals Branch, from time to time, but at

least annually as to the progress of this monitoring.

- (c) The proponent shall ensure that the appropriate provisions of the EQIH as submitted or revised pursuant to these conditions are reflected in the plans and contract specifications for all projects carried out under this EA approval. The proponent further shall be responsible for ensuring, by site inspection and such other means as may be necessary, that the construction of any part of the undertaking covered by this approval is carried out in accordance with the plans and specifications.
 - (d) MNR may make revisions to improve an EQIH already submitted to MOE, provided that such revisions are accepted by the Environmental Approvals Branch of MOE and such acceptance is confirmed by written notice to MNR, which notice and accepted revisions shall also be filed in the Public Record.
8. In respect of the abandonment of projects or activities subject to this environmental assessment approval, MNR shall follow the provisions of the FEPP for abandonment if the District Manager of MNR determines there is potential public concern over the abandonment or there are significant or unusual environmental impacts associated with the abandonment.
- 9(a) The issuance of first notification of the project proposal as required by Step 1 of FEPP must be issued to affected local, regional, district or metropolitan municipalities and must also be issued to Ministries and agencies of the Ontario Government as follows: the affected Ministry of the Environment Regional Office, the Niagara Escarpment Commission when the proposal is in an area of Niagara Escarpment Commission Proposed Plan; the Ministry of Agriculture and Food when there are possible agricultural impacts; the Ministry of Culture and Recreation, and the Ministry of Industry and Tourism. Also, notice shall be issued to the Regional Office of the Federal Department of Indian and Northern Development (DINA) and the Band Council when any Indian reserve may be affected.

The proponent shall also give public notice to interest groups (provincial, regional and local) which may be known to have concerns regarding certain issues, types of projects or geographical areas, where he considers it appropriate to do so.

In addition any individual, group or agency may, by notice in writing to the Land Use Co-ordination Branch of the Ministry of Natural Resources, request that their name be added or deleted from the mailing list to receive first notice with respect to all or certain types of projects in the Class. MNR shall accommodate *all reasonable* requests to this effect.

- (b) The first notice to Ontario Government Ministries, agencies and to the public must contain

the information, as stated by MNR in Step 1 of FEPP, as well as the following information:

- A statement which describes the procedures for involvement of the public and Government Ministries and agencies under the Class EA process, including the right of any person (as defined in s. 1 (i) of the *EA Act*) to request that an individual environmental assessment be carried out on the proposal, i.e., “bump-up” provisions.
 - A description of any related activities of which the proponent is aware, whether or not such activities are to be implemented at another time or at the same time as the project and an indication as to whether these activities are:
 - under other Class EAs
 - under exemption orders
 - not subject to the Act
 - not exempt and requiring an individual EA
 - not exempt but appropriate for exemption because of insignificant environmental effects
 - (c) Where because of the numbers of people involved or for any other reason, it is impractical to give a first notice to everyone personally, MNR may adopt another means of giving notice and MNR shall describe with the first notice to the MOE Region the procedure MNR has used for giving notice.
10. As part of Step 2 of FEPP, all efforts made by MNR in soliciting input from persons external to MNR regarding particular projects shall be documented and included in the environmental assessment file, as maintained under Step 6 of FEPP, for each project.
- 11(a) When giving final public notification to provincial ministries, agencies and the public that a preferred alternative has been chosen, MNR shall notify any such party which has indicated a continued interest in the project as well as the directly affected public, as determined by the District Manager of the appropriate MNR District Office. Final notification will include the location and description of the selected project, and will advise that comments on the project should be received by a specific person by a given date and that additional information on the project is available at specific locations.
- (b) Where MNR is required by this approval or any condition to give notice to a number of individuals or groups of people who have not provided MNR with specific addresses for such purposes, or where the number of such persons makes it impractical to give personal notice to all of them, MNR may give notice by publication or some method other than personal service.
 - (c) At the time of issuing final notice pursuant to Step 3 of the FEPP, the environmental assess-

ment file maintained for the project as specified in the FEPP will contain a description of the project, the location of the project and the proposed mitigation measures.

- (d) If MNR decides, after notice has been given at Step 1 of FEPP, that the preferred alternative should be changed to an alternative outside the original study area and the new area would have required that notice be given to additional people at Step 1, MNR shall revert to Step 1 and issue a public notice to include those now affected.
 - (e) MNR shall normally award a contract or otherwise implement a project only after 30 days have expired from the date final notice was issued. Where, in special circumstances, MNR considers it appropriate to extend or shorten the 30 day period, MNR may do so provided that all parties required to receive notice are given notice and sufficient opportunity to exercise their prerogative to request an individual EA (to "bump-up") and, where possible, shall give notice of the change in review period at the time of giving first notice.
- 12(a) If MNR, after notice has been given at Step 3 of FEPP, decides to make a significant modification to the project plan, MNR shall issue notice again to those who were previously given final notice and to any additional persons who may

be affected by the modification, as determined by MNR, advising people of the modification and requesting their comments in accordance with the procedures and conditions applicable to Step 3.

- (b) When issuing the memorandum to the Ministry of the Environment as outlined in Step 5 of the FEPP, the memorandum shall also include the location of the selected project, a description of the significant environmental effects and the proposed mitigation procedures. This memorandum is to be sent to both the relevant Region or Regions and the Environmental Approvals Branch of the Ministry of the Environment.
13. The environmental assessment file maintained under Step 6 of FEPP for each project shall include in addition to those items listed in Step 6 of FEPP, the following:
- Minutes of meetings including relevant data that was considered at the meetings, evaluations and decisions; and,
 - The environmental inventory, including all relevant data, environmental concerns and recommendations; and,
 - Records of any oral or written public submissions in response to the public notices.

THE ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 261/82.
Exemption—Ministry of Natural Resources—MNR-11/4.
Made—April 1st, 1982.
Approved—April 1st, 1982.
Filed—April 19th, 1982.

ORDER MADE UNDER
THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF NATURAL RESOURCES—MNR-11/4

Having received a request from the Minister of Natural Resources that an undertaking, namely:

The management by the Ministry of Natural Resources of Crown land presently included within forest management units

be exempt from the application of the Act for an additional period pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons indicated will occur:

The Crown and the public will be interfered with by the delay in planning and implementing of forest management plans which are scheduled to proceed within the period of the exemption.

Having weighed such injury, damage, or interference against the betterment of the people of the whole

or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The Ministry of Natural Resources requires additional time to establish and evaluate refined benefit cost figures resulting from the application of possible guidelines derived from an environmental assessment of the undertaking;
- B. The Ministry of Natural Resources has submitted a draft of the class environmental assessment to the Ministry of the Environment and will undertake measures to implement those guidelines of the class environmental assessment for public participation in respect to the approval of Forest Management Plans and Operating Plans, including road plans prescribed by these, and in respect to aerial spraying of herbicides and insecticides for forest management purposes;
- C. The undertaking is an on-going activity of the Ministry of Natural Resources and is an integral part of the economy of the Province. Since the exemption for this undertaking under Exemption Order MNR 11/3 will expire on March 31, 1982, the application of the Act before December 31, 1982 in the absence of an approval under the Act would result in the halting of forest management on Crown land. Therefore, the interference which would be caused would be undue.

This exemption is subject to the following terms and conditions:

1. The Ministry of Natural Resources or its agent shall solicit input and comments from the public and government agencies at an early stage of the preparation of Forest Management Plans and Operating Plans, as well as thirty days prior to the proposed plan being submitted for approval for implementation.
2. The first solicitation under Condition 1 does not apply to those plans commenced prior to April 2, 1981.
3. The Ministry of Natural Resources shall develop a procedure to solicit, evaluate and respond to input and comments from the public and government agencies at an early stage of the preparation of Forest Management Plans and Operating Plans for Crown and Company Management Units. This procedure shall be included as part of the class

environmental assessment to be submitted for the Activity of Forest Management on Crown land in Ontario for approval under the Act, and will also be incorporated into the forest management planning process.

4. For the period that this exemption order is in force, the Ministry of Natural Resources shall plan primary public forest access roads on Crown Management Units in accordance with the draft class environmental assessment for "Access Roads to MNR Facilities" on a trial basis. This procedure shall give emphasis to the identification of alternative road locations, the environmental effects of alternatives considered and an evaluation of the rationale for the selection of road location.
5. At least 30 days prior to the anticipated spraying of herbicides or insecticides for forest management purposes, the Ministry of Natural Resources shall notify the public and the appropriate Regional Office of the Ministry of the Environment of the project. During this period the Project Description shall be made available for public inspection at the appropriate District Office of the Ministry of Natural Resources. Where there is a newspaper or radio or television station serving the area concerned, the Public Notice shall be in the form of a paid public notice in one or more of such media. An illustrative format which may be used for a printed notice is attached as Schedule "A".
6. The Ministry of Natural Resources shall prepare a letter for each plan prepared pursuant to this exemption and send it to the Director of the Environmental Approvals Branch, Ministry of the Environment for inclusion in the Public Record. The letter shall describe:
 - (a) the area covered by the plan;
 - (b) the duration of the plan;
 - (c) the date of the public notification;
 - (d) the nature of the comments received from the public and the government agencies; and
 - (e) the proponent's responses to the comments received.

This shall be submitted when the final solicitation under Condition 1 is commenced.
7. Conditions 1 to 6 of this exemption order shall not apply to those plans of the forest management undertaking which are under review for approval prior to April 2, 1981.
8. The Ministry of Natural Resources shall provide the Director of the Environmental

Approvals Branch of the Ministry of the Environment with a list of those plans scheduled for approval during the period of this order.

9. Where the carrying out of the undertaking requires that some activity for which an environmental assessment has been done and an approval to proceed received be conducted, that activity shall be carried out in accordance with the environmental assessment and approval to proceed.
10. This order expires on the earlier date of December 31, 1982 or the granting of an approval under the Act for the forest management undertaking. O. Reg. 261/82.

ORDER MADE UNDER THE
ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF
GOVERNMENT SERVICES—MGS-48

Having received a request from the Minister of Government Services that an undertaking, namely:

The activity of constructing a laboratory facility suitable for the identification of Class 4 Pathogens within the Ministry of Health Central Laboratory at 81 Resources Road, Box 37, Rexdale, Ontario, M9W 5K9.

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury or interference with the persons indicated will occur:

- A. The public will be interfered with and injured by any delay in carrying out the undertaking. Facilities for the identification of Class 4 Pathogens are not available within Canada thus creating the potential for contagion.

Having weighed such injury or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The proposed facilities will be constructed and operated in accordance with the Medical Research Council of Canada's "Guidelines for Handling of Recombinant D.N.A. Molecules and Animal Viruses and Cells" which should ensure public safety.
- B. The equipment within the Lab Structure and the procedures to be used in relation to the operation of the Lab will have a redundancy factor built into them to ensure the safety and protection of all persons inside and outside of the Lab Unit.

This exemption is subject to the following terms and conditions:

1. That the Ministry of Health shall, prior to April 30, 1982, prepare an information document describing the rationale and need for the project. This document shall be made available for public review at the Ministry of Health Central Laboratory and a copy shall be submitted to the Environmental Approvals Branch, Ministry of the Environment, for

inclusion in the public record. The Ministry of Health shall give notice in at least one local newspaper which shall be one of: *The Globe and Mail*, *The Toronto Star* or *The Toronto Sun*, that the information document has been prepared and is available for public review;

2. That tenders for construction of the facility will be awarded no later than February 1, 1984; and
3. That the Minister of Government Services notify the Environmental Approvals Branch between 30 and 100 days prior to the calling of tenders for the project, advising that the Ministry of Government Services and the Ministry of Health have reviewed the undertaking and are of the opinion that the current situation under which the project is proposed is unchanged from the situation that existed on the date that this exemption order was issued. NATURAL RESOURCES—MNR-30/2

Having received a request from the Minister of Natural Resources that an undertaking, namely:

The carrying out of the Provincial Parks Program including the implementation of:

- (a) 1. Master Plans,
2. Site Plans,
3. Management Plans,
4. Visitor Service and Interpretive Programs,
5. Development Activities,

6. Capital Construction and Lease Purchase Projects,
7. Wildlife Habitat Improvement Projects,
8. Operations and Maintenance Plans and Schedules

in Provincial Parks and Park Reserves;

- (b) Developing sewage or water works within or for Provincial Parks;
- (c) Acquiring land to amend the boundaries of existing Provincial Parks and Park Reserves; to complete land acquisition for an existing Provincial Park or Park Reserve; or for a sewage lagoon in or for a Provincial Park; and
- (d) Establishing and amending boundary regulations for existing Provincial Parks and Park Reserves;

be exempted from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The Ministry of Natural Resources is presently preparing an Environmental Assessment for the Provincial Parks Program for approval under the Act. This work will be hampered by having to prepare individual assessments for all Provincial Parks projects at the same time.
- B. Park environmental and recreational features could be damaged in the absence of Provincial Parks projects that address existing park management problems.
- C. Public enjoyment of recreational features may be reduced in the absence of the implementation of Provincial Parks projects.
- D. The realization of Government's Outdoor Recreation Program Objective and economic benefits to local communities would be limited.

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The Ministry of Natural Resources is preparing an Environmental Assessment for the Provincial Parks Program which will be submitted under the Act for acceptance and approval before the expiry of this exemption. This Environmental Assessment will address the activities that make up this undertaking.
- B. This interim exemption will allow Provincial Parks plans and projects to continue until the Environmental Assessment on the Provincial Parks Program is accepted and the undertaking approved.
- C. The Provincial Parks Program is carried out within a context of conservation, protection and wise management of the environment. A major feature of the Provincial Parks Program is the preservation of significant, natural and cultural features in the Ontario landscape.
- D. The conditions to which this order is subject will ensure that affected Government agencies and the public are informed of the Ministry of Natural Resources' intentions to implement components of the Provincial Parks Program during the period of this exemption.
- E. A number of activities that make up this undertaking include matters that are similar to certain activities that are presently undergoing review under the Act. As these class Environmental Assessments are accepted and the activities covered by them approved, the Minister of Natural Resources will apply such parts of the procedures specified in the class Environmental Assessments as are appropriate to the activities that make up this undertaking until such procedures, or other procedures, are made directly applicable by the Environmental Assessment referred to in reason A.

This exemption order is subject to the following terms and conditions:

1. The Ministry of Natural Resources will provide the Environmental Approvals Branch as well as the Regional Office of the Ministry of the Environment with annual work plans for the Provincial Parks Program within 30 days of the work plans being approved by MNR and no less than 30 days prior to the implementation of any plan or project. The annual work plans will specify the nature, size and location of the plans and projects. MNR will notify the Environmental Approvals Branch and the Regional Office of the Ministry of the Environment of revisions to the work plans no less than 30 days prior to the implementation of any such plans or projects.

2. A copy of each plan or project documentation included in the work plan noted in Condition 1, shall be, or shall upon request be made available to the public for examination at the appropriate District Office of the Ministry of Natural Resources at least 30 days before implementation commences.
3. For plans or projects where notification as required by the class environmental assessments as per Condition 6 of this order is not provided and where the generation of some concern is anticipated, the appropriate District Manager of the Ministry of Natural Resources shall ensure notification of agencies, members of the public and groups which are potentially affected as well as the Regional office of the Ministry of the Environment, at least 30 days before the implementation of the plan or project. Potentially affected parties will be informed of how they can participate in the planning of the project if appropriate; and that they may request that an individual assessment be undertaken pursuant to Condition 8 of this order.
4. The Ministry of Natural Resources will continue its voluntary compliance with the *Planning Act* and the *Ontario Water Resources Act* and its compliance with the *Environmental Protection Act* and the Government's Provincial Parks Policy in carrying out any projects or works as part of the undertaking exempted by this order.
5. Where the carrying out of the undertaking requires that some activity, for which an Environmental Assessment has been done and approval to proceed received or an exemption granted, be conducted, that activity is not exempt under this order but shall be carried out in accordance with the Environmental Assessment and approval to proceed, or conditions of exemption whichever is applicable.
6. Activities carried out in Provincial Parks operating without a master plan which are of the type included in any class environmental assessment, except for the fact they are occurring in a Provincial Park, with respect to which an approval has been issued will follow the procedures specified in the Class Environmental Assessments. Similar activities carried out in Provincial Parks operating with a Master Plan will follow the environmental quality guidelines and Environmental Quality Implementation Handbooks of the Class Environmental Assessments.
7. This exemption does not apply to any plan or project:
 - (a) where development is likely to modify or disturb the habitat of a species designated under the *Endangered Species Act*;
 - (b) where the estimated completion cost of a sewage or water works project or a Capital Construction or Lease Purchase Project is in excess of \$2,000,000, not including any land acquisition costs;
 - (c) where a major resource extraction facility or operation is to be developed, substantially upgraded or have its operating restrictions changed significantly or removed within a Provincial Park;
 - (d) where a major commercial recreation facility is to be developed or substantially upgraded by the private sector within a Provincial Park; or
 - (e) where a master plan for a new undeveloped Provincial Park is being implemented, unless the master plan is for a nature reserve class of park.
8. Should it become apparent to the Ministry of Natural Resources that a project exempt under this order meets the criteria set out below, or the public approaches either the Ministry of Natural Resources or the Ministry of the Environment, and upon notice and consultation between the Ministries, either Minister may decide that an individual Environmental Assessment be prepared in the following circumstances:
 - (a) where a proposed plan or project generates an unusual amount of public or Government concern;
 - (b) where there are unusual or significant potential environmental impacts not adequately treated in the pertinent planning exercise;
 - (c) where a land area that has significant earth science, life science or cultural features is acquired for the purposes of or is brought into the Provincial Parks Program; and
 - (d) where a Provincial Park is to be retired.
9. This exemption shall terminate on the date on which approval to proceed with respect to the undertaking described in the Environmental Assessment for the Provincial Parks Program referred to in Reason A is received under the Act and shall not apply to any project for which the implementation is not completed by March 31, 1983.

10. Where an Environmental Assessment is submitted for an individual Provincial Parks plan or project, that plan or project shall be deemed to be a separate undertaking not exempt by this order.

11. Those plans and projects planned under this exemption, but for which implementation is not complete on the date of expiry of this exemption, will have their status under this Act reviewed in connection with the review of the Environmental Assessment of the undertaking referred to in Reason A and if provided for in conditions of approval issued in connection with the undertaking may continue to proceed in accordance with such conditions.

12. During the period covered by this order, the Provincial Parks Program shall be planned, implemented and managed according to the following Provincial Parks' Guidelines and Policies:

Ontario Provincial Parks

Ontario Provincial Parks Planning and Management Policies

Park Management and Operating Plan Format

Landscape Design Principles and Guidelines

THE ENVIRONMENTAL ASSESSMENT ACT

O. Reg. 279/82.

Exemption—Ministry of Citizenship and Culture—MCC-1.

Made—April 22nd, 1982.

Approved—April 22nd, 1982.

Filed—April 28th, 1982.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT

EXEMPTION—MINISTRY OF CITIZENSHIP AND CULTURE—MCC-1

Having received a request from the Ministry of Citizenship and Culture that an undertaking, namely:

The purchase of the Whent Property, Part Lot 19, Conc. I, S.K.R. Former Township of Neebing, City of Thunder Bay, required to form a buffer for the preservation of the natural surroundings and aesthetics of the Old Fort William Historical Site,

be exempt from the application of the Act pursuant to section 29; and

Having been advised that if the undertaking is subject to the application of the Act, the following damage or interference with the persons and property indicated will occur:

A. The Crown will be interfered with and damaged by the undue expense required to prepare an environmental assessment for an undertaking that will have no significant adverse effects on the environment but will in fact protect the environment by maintaining the natural surroundings of Old Fort William.

B. The Crown will be interfered with by not being able to acquire the property at present when the vendor is willing to sell and may be damaged by the increased cost of purchasing from a third party. The Crown may also be damaged if the sale to another party results in changes to the property which are not compatible with the aesthetics of Old Fort William.

Having weighed such damage, or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The Ministry of Citizenship and Culture will not develop the Whent Property but will retain the said property as a visual buffer for the Old Fort William;
- B. The proposed undertaking will not have any significant adverse effects on the environment but will in fact protect the environment.

This exemption is subject to the following terms and conditions:

1. The present natural environment of the Whent Property shall be protected and no building or construction will take place on the said property. The only changes allowed to the property shall be the planting of trees or any other such activities which shall improve the natural qualities of the property.
2. The acquisition of the Whent Property shall in no way be used by the Ministry of Citizenship and Culture or any other agency which will be responsible for Old Fort William to justify any particular undertaking which may involve the property in question. O. Reg. 279/82.

Schedule 15

Schedule of Benefits

PREAMBLE**A. General**

1. The rates listed in this Schedule of Benefits are the maximum payments which can be made by the Ontario Health Insurance Plan.

2. Insured medical services are limited to the services which are medically necessary, which are listed in this Schedule of Benefits and which are not specifically excluded by legislation or regulation (see Appendix A for a list of specific exclusions).

3. Additions, deletions or other modifications of the Schedule of Benefits require recommendation by the Ontario Health Insurance Plan. Such recommendations are made in consultation with the Ontario Medical Association.

4. This Schedule is a public document and frank discussion with patients regarding the listed rates is recommended.

5. Claims for services which are not listed in the Schedule or which are listed as N.A.B. (not a benefit) or which are excluded as benefits by legislation or regulation should not be submitted to the Plan. Such services may be charged directly to patients or others requesting them.

6. The principles governing proper professional charges are incorporated in the Regulations (Medicine) of the Health Disciplines Act.

7. Each physician who participates in the care of a patient is entitled to compensation commensurate with the services he renders.

8. Whenever possible, the physician should acquaint the patient or person financially responsible with his obligations to those concerned with his care. This is particularly important where supportive or concurrent care is rendered or when a consultation and/or procedure are being arranged.

9. Each physician participating in the care of a patient should render to the patient, or to the financially responsible party, an itemized statement of charges for professional services.

10. Each physician participating in the care of a patient should, on request, send a receipt to the patient for all payments made by him.

11. If fees are collected by an organized group, the name of the physician rendering the service should be clearly shown on the bill or claim card.

12. Documentation: whenever a physician examines or treats a patient, an appropriate record of this service must be made and such record must be in keeping with section 29 of Regulation 448 of Revised Regulations of Ontario, 1980 under the Health Disciplines Act (see Appendix B).

13. Claims may be submitted for services which a patient receives from the team of staff man, resident, intern and clerk in a teaching unit, provided that the conditions as set out hereunder apply.

On October 10, 1972, the Minister of Health confirmed that the joint recommendations of the College and the O.M.A. governing the charging of fees for services provided by interns and residents in clinical teaching units are acceptable to the Ministry of Health. In his letter the Minister made it very clear that he is looking to the College and the Medical Schools to en-

PREAMBLE

sure that the ethical rules governing these billing procedures are followed meticulously in all cases.

It has been carefully explained that the responsible staff man must be present in the clinical teaching unit at the time the services are rendered and must be identified to the patient at the earliest possible moment. No fees are to be charged for services given by the intern or resident prior to this identification taking place. The following rules are now in effect:—

When patient care is rendered in a clinical teaching unit or other setting for clinical teaching by a health care team, the physician responsible shall be personally identified to the patient. His relationship to the team shall be defined by the clinical teaching unit Director and his role must be known to the patient and other members of the team. He shall assume full responsibility for the appropriateness and the quality of the services rendered.

Specific regulations must vary with the service and form of care being delivered:—

- (a) In order to claim for physical procedures being carried out by an intern or resident, the responsible staff man must be in the clinical teaching unit and immediately available to intervene.
- (b) In psychotherapy where the presence of the staff man would distort the psychotherapy milieu, it is appropriate for the staff man to claim for psychotherapy when a record of the interview is carefully reviewed with the resident and the procedure thus supervised. However, the time charged by the staff man may not exceed the total time spent by him in both such interview review and in direct supervision.
- (c) In other departments or services, the staff man should only claim for visits on the days when actual supervision of that patient's care takes place through the presence of that staff man in the clinical teaching unit on that day. This, of course, involves a physical visit to the patient and/or a chart review with detailed discussion with the other member(s) of the health team.
- (d) In those situations where on a regular basis a staff member might supervise concurrently multiple procedures or services through the use of other members of the team, the total claims made by the staff man shall not exceed the amount that the staff man might make in the absence of the other members of the team.

Any claim rendered should be in the name of the responsible staff man.

14. Charges for missed appointments are not benefits of O.H.I.P.

B. Terms and Definitions

Call or Visit: is the service by a physician to or on behalf of a patient for assessment and/or treatment.

1. Consultations:

- (a) A consultation refers to the situation where a physician, in light of his professional knowledge of the patient, requests the opinion of another physician competent to give advice in this field, because of the complexity, obscurity or seriousness of the case or because another opinion is requested by the patient or an authorized person acting on his behalf. The consultant is obliged to perform a general or specific assessment, review the laboratory and/or other data and submit his findings, opinions and recommendations in writing to the referring physician.
- (b) If a consultant is requested by a physician on duty in the emergency department to

PREAMBLE

see a patient in consultation, the consultant may claim a consultation for this service. If the consultant is requested to perform this same service by a resident or intern, the consultant may claim a general or specific assessment according to his specialty.

- (c) For laboratory and procedural benefits connected with consultations, see listings of Laboratory Medicine and Diagnostic and Therapeutic Procedures.
- (d) A consultation is not to be claimed as such when:
 - (i) The patient presents himself to a consultant's office without prior knowledge of the primary physician. The sending of a report to the primary physician under these circumstances does not justify a claim for a consultation.
 - (ii) The primary physician is not asked for professional advice but is simply asked by the patient for the name of a specialist in a particular field and the patient seeks out the specialist himself.
- (e) A limited consultation may involve all of the components of a full consultation but is less demanding, and in terms of time, normally requires substantially less of the physician's time than the full consultation.
- (f) A diagnostic radiology consultation applies when radiographs made elsewhere are referred to a radiologist for his written opinion or when a radiologist is required to make a special visit at Night (5.00 p.m. to 7.00 a.m.), Saturdays, Sundays and Holidays to consult on the advisability of performing a diagnostic radiological procedure which eventually is not done. A consultation does not apply when the radiographs referred to above are used for comparison purposes with radiographs made in the consultant's facilities.
- (g) A diagnostic pathology consultation applies when tissue slides are referred to a second pathologist for a written opinion. It includes secretarial or other assistance but does not apply when the tissue slides referred to above are used for comparison with tissue slides done in the consultant's facilities. When a diagnostic pathology consultation fee is claimed L821 may not also be claimed.
- (h) A pathology consultation or repeat consultation applies when a pathologist is requested to examine a patient and provide a written opinion.
- (i) A diagnostic nuclear medicine consultation applies when nuclear medicine studies are referred to a nuclear medicine specialist for a written opinion or when the nuclear medicine physician is required to make a special visit at night (5.00 p.m. to 7.00 a.m.), Saturday, Sunday or Holiday to consult on the advisability of performing a nuclear medicine procedure which eventually is not done. A consultation does not apply when procedures done elsewhere are used for comparison purposes with nuclear medicine studies made in the consultant's facilities.
- (j) A nuclear medicine consultation or repeat consultation applies when a nuclear medicine specialist is requested to examine a patient and provide a written opinion, all of which takes a greater amount of time and effort than a nuclear medicine study would normally require. It may be done in conjunction with a nuclear medicine study but if so, the lesser professional benefit (P₂) rather than the greater benefit (P₁) should be claimed in addition to the technical (T) benefit.
- (k) Some nuclear medicine specialists have other specialist qualifications which allow

PREAMBLE

them to claim other consultation benefits (e.g., internal medicine). A nuclear medicine consultation or repeat consultation may be claimed in lieu of another consultation (e.g., internal medicine) but would not be combined with a claim for such a consultation by the same consultant.

- (l) A prenatal consultation by a paediatrician applies when a physician considers a foetus of greater than 20 weeks gestation to be at risk or in jeopardy by reason of continuation of pregnancy in the presence of maternal and/or foetal distress, and requests the opinion of a paediatrician competent to give advice in this field. The paediatrician shall perform a general or specific assessment, review laboratory and other data and submit his findings and recommendations in writing to the referring physician. Such a consultation does not preclude the paediatrician from a postnatal consultation on the infant.
- (m) OHIP benefits for consultations normally are limited to one consultation per year, per patient, by any one physician. However, if the same patient is referred to the same consultant a second time within the year with a clearly defined unrelated diagnosis, one additional consultation may be claimed per year.

2. **Repeat Consultation:** requires all of the criteria of a full consultation and implies interval care by the primary physician. The situation in which the consultant requests the patient to return for a later examination is not a repeat consultation.

3. **General Assessment:** shall comprise a full history, an enquiry into, and an examination of all parts or systems (and may include a detailed examination of one or more parts or systems), an appropriate record, and advice to the patient.*

OHIP benefits for general assessments normally are limited to one per year per patient by any one physician. However, if the same patient presents again within the year to the same physician with a clearly defined new diagnosis, one additional general assessment may be claimed per year. In the case of a patient who proceeds normally to hospital, the admitting physician may claim one additional general assessment per year provided 90 days have elapsed since the last general assessment rendered (anywhere) to that patient by the admitting physician. If the patient doesn't qualify for a general assessment by the admitting physician, he may claim a general re-assessment.

4. **General Re-Assessment:** shall comprise the same services as a general assessment except that the history need not include all the detail already obtained in the original general assessment.*

OHIP benefits for general re-assessments, except for hospital admission re-assessments, are limited to two per year, per patient, by any one physician.

5. **Specific Assessment:** shall comprise a full history of the presenting complaint, enquiry concerning, and detailed examination of the affected part, region or system, as needed to make a diagnosis and/or exclude disease and/or assess function, an appropriate record, and advice to the patient.*

Physicians qualified in two specialties (EENT for example) may only claim for one visit, eg: a consultation (if referred) or a specific assessment (if non-referred), if both systems are

*For laboratory and other investigation performed in conjunction with a consultation or visit, see Diagnostic and Therapeutic Procedures and Laboratory Medicine.

PREAMBLE

examined during the same visit. However, two consultations or two specific assessments, etc. may be claimed if both systems are examined, each on a separate visit.

OHIP benefits for specific assessments normally are limited to one per year, per patient, by any one physician. However, if the same patient presents again within the year to the same physician with a clearly defined new diagnosis, one additional specific assessment may be claimed per year.

6. Specific Re-Assessment: shall comprise a full relevant history and a comprehensive physical examination of one or more systems but not requiring an evaluation of the patient as a whole.*

In the surgical specialties, anaesthesia and dermatology, a specific re-assessment applies when a repeat specific assessment is required and carried out on a patient within a year's time for the same condition and with the same diagnosis; it shall comprise the same services as a specific assessment except that the history need not include all of the detail already obtained in the original specific assessment. A specific re-assessment is not to be claimed for treating a minor problem or for visits required solely for assessing the response to a treatment of a previously diagnosed condition unless an additional clinical assessment is required and performed.

In the medical specialties, a specific re-assessment applies in the management and assessment of the progress of serious chronic disease. It is not to be claimed for treating a minor problem or for visits required solely for assessing the response to treatment of a previously diagnosed condition unless an additional clinical assessment is required and performed.

7. Intermediate Assessment: is a more extensive assessment than a minor assessment and shall comprise a history of the presenting complaint(s), enquiry concerning and examination of the affected part(s), region(s), or system(s) or emotional disorder as needed to make a diagnosis, exclude disease and/or assess function, an appropriate record, and advice to the patient.*

8. Multiple Systems Assessment: shall comprise a detailed history and examination of more than one system, part or region, an appropriate record and advice to the patient.

9. Minor Assessment: is a brief assessment comprising the necessary history, examination of the affected part or region, an appropriate record and advice to the patient. It also applies to a subsequent visit solely for assessing the response to treatment of a previously diagnosed condition when the necessary examination and/or assessment reveals that no additional clinical assessment is required and none is performed.*

10. Psychotherapy: is any form of treatment for mental illness, behavioural maladaptations, and/or other problems that are assumed to be of an emotional nature, in which a physician deliberately establishes a professional relationship with a patient for the purposes of removing, modifying or retarding existing symptoms or attenuating or reversing disturbed patterns of behaviour, and of promoting positive personality growth and development. Accordingly, therefore, a psychotherapeutic procedure may be claimed if a half hour or major part thereof has been spent by a physician in such treatment of the patient. Psychotherapy may not be claimed by more than one physician for the same patient at the same time.

Please note that the College of Physicians and Surgeons of Ontario has stated that "in or-

PREAMBLE

der to qualify for a psychotherapy claim, a minimum of twenty minutes must be spent with the patient. When psychotherapy extends beyond thirty minutes, the major part (16 minutes) of the next half hour must be spent with the patient to qualify for an additional half hour fee. Similarly, after an hour of psychotherapy, the major part (16 minutes) of the next half hour must be spent to qualify for an additional half hour fee and so on." (Medical Review Committee Bulletin, Volume 3, Number 1.)

11. Counselling: as distinct from psychotherapy, counselling is that activity in which the physician engages in an educational dialogue with the patient(s) on an individual or group basis wherein the goal of the physician and patient(s) is to become aware of the patient(s) problems or situation and of modalities for prevention and/or treatment. Counselling is not intended for ongoing treatment or a substitute for a patient assessment, and it must be rendered personally by the attending physician.

Advice given during a visit for patient assessment and relative to that assessment (see definitions) is included in the assessment benefit and does not qualify for "counselling".

12. Genetic Counselling: includes interviewing the appropriate family members, the collection and assessment of adequate clinical and genetic data to make a diagnosis, construct a pedigree, and assess the risks to persons seeking advice. It includes imparting this information and the various alternatives to the appropriate family members in such a way that they can make informed decisions about dealing with the genetic problem.

13. Examinations of Well Persons:

(a) Age: (unless otherwise specified)

Newborn — up to 10 days of age.

Infant — up to 2 years

Child — up to and including 15 years

Adolescent — up to and including 17 years

Adult — 18 years or over.

(b) Newborn Care: is the routine care of a well baby up to ten days of age and should include a complete physical examination of the baby and necessary instructions to the mother. The service shall involve at least two visits, and normally may not be claimed for the same patient by more than one physician.

When a well baby is transferred to another hospital (because of the mother's state of health, for example) claims for newborn care by a physician at each hospital may be appropriate.

(c) Low Birth Weight Care: is the care of a baby weighing less than 2.5 kilograms at birth.

(d) Well Baby Care: the periodic visits of a well baby during the first two years of life involving complete examination with necessary weight and measurements and instructions to the parent(s) regarding health care.

(e) Annual Health or Annual Physical Examination (Including Primary and Secondary School Examinations): shall comprise all the elements of a general assessment as it pertains to an individual who presents and reveals no apparent physical or mental illness. O.H.I.P. benefits for any one physician are limited to one Annual Health Ex-

PREAMBLE

amination per patient per year after the second birthdate. To qualify for O.H.I.P. benefits, an Annual Health Examination normally must be requested by the patient rather than a third party. Under Regulation 323 of The Health Insurance Act, 1972, examinations for the purpose of "legal requirements or proceedings" are excluded from coverage. However, it is recognized that an Annual Health Examination will satisfy some or all of the requirements for examinations required by statute but excluded by the above mentioned Regulation. In such instances and where a prior claim for an Annual Health Examination has not been submitted to the Plan in the previous twelve months for that patient, it would be appropriate to submit a claim to OHIP for this service. The OHIP benefit in these cases covers the Annual Health Examination only and not any charges peculiar to the legal requirements, such as charges for the completion of forms.

Other Terms, Definitions and Guidelines

14. **Coding:** This schedule lists a code number opposite most items. Items which are not coded are identified either as U.V.C. or N.C.

U.V.C. — use visit codes applicable to the pertinent service and specialty.

N.C. — no code applicable. This service is not a benefit (N.A.B.) of O.H.I.P., and may be charged directly to patients.

For the surgery portion of this schedule, physicians submitting claims in coded form should add to the code numbers, the suffix A if they perform the procedure, the suffix B if they have assisted at the surgery or the suffix C if they have administered the anaesthetic.

For those diagnostic and/or therapeutic procedures which have the technical and professional components listed separately, but under the same code, the suffix A should be added to the code numbers when both components are being claimed, the suffix B when only the technical component is being claimed, or the suffix C when only the professional component is being claimed.

Where separate codes are listed for the technical or the professional components, the suffix A should be used.

For diagnostic radiology, only one code is listed for each service, even though some of these services may be provided by non-certified radiologists. The code for services rendered by non-certified radiologists should be obtained by increasing the first digit in the listed codes by 5. Thus, for example, the code for the service listed as X001 but rendered by a non-certified radiologist would be X501 plus the appropriate suffix.

15. **General Listings:** include the basic listings for consultations, assessments and other visits wherever they are rendered, except for non-emergency services to hospital or long-term care institution in-patients and for care rendered by a physician on duty in an emergency department. These latter services are listed separately in the Schedule.

A visit rendered to a patient in a rest home, lodge, detoxification centre, half-way house, or other institution not covered elsewhere in the Schedule, should be claimed under the General Listings.

16. **Non-Emergency Hospital In-Patient Services:** include the listings for consultations and other visits to registered bed patients.

(a) The general assessment, general re-assessment, specific assessment or specific re-as-

PREAMBLE

assessment rendered in conjunction with a patient's admission to hospital is considered to be the hospital "admission assessment". Such assessments may not be claimed more than once during a hospital admission even if a patient's care subsequently is transferred to another physician. Moreover, such assessments may not be claimed by a consultant who also is claiming a consultation in conjunction with the patient's admission to hospital. Such consultation by the admitting physician serves as the admission history and examination.

- (b) Subsequent routine visits should be claimed as "subsequent visits (minor assessments)". Claims for daily hospital visits must not be made unless a physician actually visits the patient each day. Prior to the weekly and monthly limitations that apply after a patient has been in hospital for 5 weeks (6 weeks for paediatricians), payments for hospital visits generally are limited to one per patient per day. For acute illnesses or exacerbation of original illness requiring additional visits before or after 5 weeks of hospitalization, claims for extra visits should be made on an independent consideration basis.
- (c) When a patient in hospital is referred by one physician to another, the second physician will not be limited by the Subsequent Hospital Visit formula for the number of hospital visits already rendered by the first physician. In other words, the second physician is entitled to claim for his visits up to five weeks just as if the patient was being attended to in hospital for the first time. However, if the patient is transferred to the care of another physician, the Subsequent Hospital Visit formula would apply just as it would if only one physician was involved in the care.
- (d) When a physician already is in the hospital and is asked to assess one of his own in-patients on a non-emergent or emergent basis, the subsequent hospital visit listings apply. However, if he is asked to assess another physician's patient on an emergent basis, the General Listings should be used.

17. Emergency Department — Physician on Duty Services: include the listings for minor and multiple systems assessment and the specific premiums applicable to the services rendered by the physician on duty. A physician on duty in the Emergency Department regardless of his specialty should submit claims under these listings. A physician who is not on duty in the Emergency Department should use the General Listings when seeing patients in the emergency or out-patient departments. See Appendix C for further guidelines to claiming for services rendered in the Emergency Department.

18. Long-Term Institutional Care: includes the listings for consultations, assessments and other visits to patients in chronic care hospitals, convalescent hospitals, nursing homes and other institutions in which such patients are covered by extended care legislation.

Admission assessments to long term care institutions are classified as —

Type 1 — applies when the admitting physician has not performed a consultation, general assessment or general re-assessment prior to admission and when he carries out a general assessment (on admission) and provides a report for the medical record.

Type 2 — applies when the admitting physician has performed a consultation, general assessment or general re-assessment prior to admission, makes an initial visit and records an admission note describing the condition of the patient following admission.

When a physician already is in the institution and is asked to assess one of his own in-patients on a non-emergent or an emergent basis, the subsequent visit listings apply. However, if

PREAMBLE

he is asked to assess another physician's patient on an emergency basis, the General Listings should be used.

19. Visit for Procedure: when the sole reason for an office visit is the performance of a certain procedure, the listed benefit for the procedure will apply. (See Diagnostic and Therapeutic Procedures Preamble for exceptions.) When procedures are carried out in the office, emergency or outpatient department on an elective basis, a special visit should not be claimed in addition to the procedural fee.

When procedure(s) are carried out by a physician's employee(s) under the direct supervision of the physician, the usual claims may be made for procedure(s) which are generally and historically accepted as those which may be carried out by the nurse or other medical assistant in the employ of the physician. "Procedures" in this context do not include such services as assessments, consultations, psychotherapy, counselling, etc. Direct supervision requires that during the procedure the physician be physically present in the office or clinic at which the service is rendered.** While this does not preclude the physician from being otherwise occupied he should be in personal attendance on enough occasions to ensure that procedures are being performed competently and he must at all times be available immediately to approve, modify or otherwise intervene in a procedure as required in the best interests of the patient.

For physiotherapy procedures performed under direct physician's supervision as detailed above, see Code G467 on Page 104.

20. Premiums:

(a) Special visit fees chargeable in addition to benefits for services listed under consultations and visits, critical care and injections or infusions.

- (i) A special visit is one which is initiated by the patient or his representative which requires a physician to travel from one location to another to see a patient(s). That is, when the physician is not already in the office, hospital, institution, patient's home, etc. and is called to make a special trip there to attend a patient, a "special visit" premium may be claimed. The premium(s) for a special visit to the office only applies outside of normal office hours but does apply whether or not the office is in the physician's home.
- (ii) The special visit premiums apply only to emergent or non-elective calls and do not apply to non-referred or transferred obstetrics. The premiums do not apply to visits on regular rounds, and admission assessments of patients who have been admitted to hospital, etc. on an elective basis do not qualify as "special visits", regardless of the time performed.
- (iii) If an institution has arranged to have quarters in the same or in a proximal building in order that a physician will be available to make visits to the institution, particularly at night, these are not considered to be "special visits" to the institution.

When services are rendered on an emergency basis at a site other than listed in this schedule (e.g. roadside, ski slope, etc), the special visit premiums are applicable.

**Some procedures may not require the physical presence of a physician for adequate supervision. Exceptions to this requirement of direct supervision may be made upon recommendation of the Ontario Medical Association and the College of Physicians and Surgeons of Ontario.

PREAMBLE

If a physician is called to pronounce a patient dead, a minor assessment may be claimed along with the appropriate surcharge for the special visit.

- (iv) An emergency call with sacrifice of office hours may be claimed in a situation where the demands of the patient and/or the physician's interpretation of the patient's condition is such that the physician responds immediately at the sacrifice of regular office hours.
- (v) A special visit at night or on a Saturday, Sunday or holiday may be claimed when non-elective or emergent calls are made between the hours of 5.00 pm and 7:00 am or are received and made on Saturdays, Sundays and Holidays. "Holidays" are defined for the purpose of this schedule as New Year's Day, Good Friday, Easter Monday, Victoria Day, Dominion Day, Civic Holiday, Labour Day, Thanksgiving, Remembrance Day, Christmas Day and Boxing Day. If any of these holidays fall on a Saturday or Sunday, at the physician's discretion either the Friday before or the Monday following will be recognized as the holiday.
- (vi) Only one special visit premium (daytime; sacrifice of office hours; or nights, Saturdays, Sundays and Holidays) may be claimed for the same patient, same visit, and do not apply to non-referred or transferred obstetrics.
- (vii) The Home Visit premiums apply to emergent or non-elective assessments which are initiated by a call from the patient or his representative. It is recognized, however, that a home visit occasionally may be required because of the patient's medical condition even though the physician has not been called specifically for that visit. For such "elective home visits", the daytime special visit premium B990 is applicable in addition to the appropriate assessment under the General Listings. The Special Visit premiums applicable to nights, Saturdays, Sundays, Holidays or sacrifice of office hours, however, are not appropriate, regardless of the time of the visit.
- (viii) Normally, the "additional patient" premiums are not applicable unless the additional patient himself qualifies for a special visit. Patients who drop in to the office or Emergency Department while the physician is there for reasons other than rendering a special visit at that time do not qualify for any of the special visit premiums. However, extra patients during a home visit or those who drop in to the office or Emergency Department while the physician is there rendering a special visit to another patient also qualify for the "additional patient" premiums if an assessment is rendered.

Extra in-patients seen during a special visit to a hospital or other institution do not qualify for the "additional patient" premiums unless the physician has been asked specifically to see these extra patients as well. (See also paragraph 16(d) above.)

Patients seen during "office hours" held at night or on Saturdays, Sundays or Holidays do not qualify for any of the special visit premiums.

Special Visit Benefits:—(applicable in addition to benefits for services listed under "Consultations and Visits" and "Critical Care") K992, C992, K993, C993 also are applicable to assistant and/or anaesthetist at emergency surgery.

- (ix) Daytime (Monday to Friday) special visit to Emergency Department or O.P.D.
K990 First patient assessed add \$ 10.30
K991 For each additional patient requiring a special visit and assessed during same special visit, add 20% to assessment fee.

PREAMBLE

- (x) Emergency call with sacrifice of office hours —
K992 first patient assessed add \$ 20.60
K993 for each additional patient requiring a special visit and assessed during
same special visit add 20% to assessment fee.
- (xi) Evenings, Saturdays, Sundays, Holidays (5:00 p.m. to midnight) —
K994 first patient assessed add \$20.60
K995 for each additional patient requiring a special visit and assessed during
same special visit add 20% to assessment fee.
Nights (midnight to 7:00 a.m.)
K996 First patient assessed add \$31.00
K997 For each additional patient requiring a special visit and seen during
the same special visit, add 30% to the assessment fee.
- (xii) Special visit to office —
The above benefits apply, but the prefix “A” should be substituted for the
prefix “K” in the code (e.g. A990 instead of K990).
- (xiii) Special visit to patient’s home —
The above benefits apply, but the prefix “B” should be substituted for the
prefix “K” in the code (e.g. B992 instead of K992).
- (xiv) Special visit to hospital in-patient —
The above benefits apply, but the prefix “C” should be substituted for the
prefix “K” in the code (e.g. C992 instead of K992).
- (xv) Special visit to long-term care institution —
The above benefits apply, but the prefix “W” should be substituted for the
prefix “K” in the code (e.g. W992 instead of K992).
- (xvi) Special visit to any setting not listed above, or emergency services at the road-
side, ski slope, etc.
The above benefits apply, but the prefix “Q” should be substituted for the
prefix “K” in the code (e.g. Q994 instead of K994).
- (xvii) Non Elective Surgical Procedures or Clinical Procedures Associated with Diag-
nostic Radiological Examination: — when such procedures including Caesarean
sections, the surgical management of ectopic pregnancies, fractures or disloca-
tions or **major invasive procedures contained in the list of Diagnostic and
Therapeutic Procedures or elective procedures which because of intervening
emergency procedure(s) commence after 5:00 p.m. and before midnight or on
Saturdays, Sundays and Holidays, increase the procedural fee(s) by 20%
(E409). For all other obstetrical procedures e.g. deliveries occurring on Satur-
days, Sundays and Holidays, increase the procedural fee(s) by 20% (E409).
When the foregoing procedures commence after midnight and before 7:00 a.m.
any night during the week, increase the procedural fee(s) by 50% (E410).
These premiums are not chargeable in addition to the obstetrical procedural
fee(s) if labour is induced by medical and/or surgical means by the same physi-
cian. However, a forewater A.R.M. or oxytocin augmentation of labour carried
out on a patient in desultory labour does not constitute induction.
These premiums are not chargeable (during or after a “shift”) by casualty
officers or other physicians who have elected or are required to be physically and
continuously present in the Emergency Department or environs for an arranged
designated period of time.

E409 or E410 may not be claimed for procedures which mainly involve the interpretation of test results and are not applicable to assessments or consultations. Neither are they applicable to physicians on duty in the emergency department nor to procedures listed in the Diagnostic Radiology, Nuclear Medicine or Diagnostic Ultrasound sections of the Schedule.

(xviii) Non-elective Nuclear Medicine, Diagnostic Radiology, **Laboratory Medicine** or Diagnostic Ultrasound Examinations.

C109 For special visits at night (5:00 p.m. to midnight) or before midnight, Saturdays, Sundays or Holidays to perform examinations listed in the Nuclear Medicine, Diagnostic Radiology, **Laboratory Medicine** or Diagnostic Ultrasound sections of the Schedule, a premium of ~~\$20.60~~ may be added to the benefit for the first examination performed on any one patient or may be claimed alone if it is decided that the procedure is not medically indicated and a consultation is not rendered.

C110 For such special visits commencing between midnight and 7:00 a.m., the applicable premium is ~~\$31.00~~

(xix) Assistants' services —

E400B For cases commencing after 5:00 p.m. and before midnight or before midnight on Saturdays, Sundays and Holidays, the total benefit for assistant units (basic and time) is increased by 30%.

E401B For cases commencing after midnight and before 7:00 a.m., the total benefit for assistant units is increased by 50%.

(xx) Anaesthetists' services —

E400C For cases commencing after 5:00 p.m. and before midnight or before midnight on Saturdays, Sundays and Holidays, the total benefit for anaesthetic units (basic and time) is increased by 30%.

E401C For cases commencing after midnight and before 7:00 a.m., the total benefit for anaesthetic units is increased by 50%.

(b) Special Care Unit (e.g. I.C.U. or C.C.U.) —

C101 For each patient seen on visit to I.C.U. or C.C.U. (excluding supportive care), add ~~\$4.50~~ to charges for all such visits.

**Note: Where visit is not chargeable,
e.g. post operative care by surgeon, claim only C101**

21. **Detention:** benefits may be applicable for detention when under very exceptional circumstances a physician is required to spend considerable extra time with a patient. Such extra time must be spent in active treatment of the patient, and it must be to the exclusion of all other work.

PREAMBLE

Claims for detention must be substantiated by an explanation on the claim card or in an accompanying letter, and should be made on an "I.C." basis according to the following guidelines:

- After twenty minutes if the physician spends more than this amount of time providing a minor or intermediate assessment or subsequent hospital visit;
 - After forty minutes if the physician spends more than this amount of time providing a specific or general re-assessment or multiple systems assessment or certification of mental illness;
 - After one hour if the physician spends more than this amount of time providing a consultation, limited consultation, repeat consultation, prenatal consultation, specific or general assessment.
- Detention is not meant to apply to procedures nor to obstetrical care and does not include time waiting for X-rays, lab reports, the operating room or for the patient to arrive for assessment or treatment.
- | | | |
|------|--|--------------|
| K001 | Detention, per quarter hour or part thereof |\$12.40 |
| K101 | Detention, while in attendance with patient(s) | |
| | in ambulance, per quarter hour or part thereof |\$20.60 |

Note: K101 is not applicable to attendance in a vehicle other than an Ambulance.

22. **Independent Consideration — "I.C.":** independent consideration will be given by O.H.I.P. for those items in the Schedule of Benefits which are listed as I.C.. Claims rendered under this heading must include a specific charge along with a detailed explanation of that charge. Where pertinent, an operative report is very helpful in rendering independent consideration. It also is helpful if I.C. claims include a comparison of the scope and difficulty of the procedure with other specific procedures listed in the Schedule.

23. **Transferral and Referral:**

- (a) A referral takes place when one physician requests for his patient the services of another. The services of the latter may consist of:
 - (i) an opinion (i.e. a consultation)
 - (ii) diagnostic tests or procedures (e.g. skin test, biopsy, etc.)

Note: In such cases the referring physician continues to treat the case himself.

- (iii) treatment (surgical or medical).

The referring physician's O.H.I.P. registration number must be included on the claim submission.

- (b) A transferral, as distinguished from a referral, takes place where the responsibility for the care of the patient is completely transferred permanently or temporarily, from one physician to another in the same field or specialty (e.g. where the first physician is leaving temporarily on holidays and unable to continue to treat the case). The physician to whom the patient is transferred should be regarded as substituting for the other physician and is not entitled to claim for a consultation. Physicians who are substituting for other physicians should consider that patients of the latter have been temporarily transferred (not referred) to their care. Where the care of the patient involves a benefit containing several components such as surgery the physicians may consider the surgical benefit a team benefit and decide among themselves how

PREAMBLE

each is to be compensated; traditionally physicians in these circumstances have reciprocated by exchanges of coverage for each other. When physicians routinely or frequently substitute for each other providing hospital visits to registered bed patients in active treatment hospitals, e.g. weekend coverage or daily rounds by various members of a group, the most responsible physician may claim for all the visits.

24. Most Responsible Physician: is the attending physician who is primarily responsible for the day to day care of the patient in hospital. In cases of unusual severity where the consultant assumes the role of the most responsible physician, the consultant may claim on a per visit basis and the family physician may claim supportive care. Where the family physician remains the most responsible physician and requests only a consultation, the family physician may claim on a per visit basis and the consultant may claim for a consultation only.

25. Concurrent Care: when the family physician remains the most responsible physician but because of the seriousness or complexity of the condition, requests continued directive care by a consultant, the family physician may claim on a per visit basis. The consultant also may claim on a per visit basis, not to exceed four such claims during the first week of concurrent care and not to exceed two such claims each week thereafter while the patient's condition remains serious — this arrangement being agreeable to both physicians.

26. Multidisciplinary Care: applies when the complexity of the medical condition requires the services of several physicians in different disciplines. In such cases, each physician should render a separate claim on a per visit basis. This does not refer to a situation where a single benefit for a team of physicians is listed in the Schedule.

27. Supportive Care: is the care rendered in hospital by the referring physician, who is not actively treating the case (e.g. writing orders), to a patient under the care of another physician, at the desire of the patient or family, for purposes of liaison or reassurance. The physician may claim for this care on a per visit basis, not to exceed four such claims during the first week of supportive care and not to exceed two such claims each week thereafter. If medical complications develop or are present in the post-operative period which require active management by the referring physician, claims for hospital medical care should be rendered, not supportive post-operative care.

28. Specialist: a specialist shall be defined (for purposes of application in the case of any given service within this Schedule) as one who holds a certificate from the Royal College of Physicians and Surgeons of Canada in the specialty which normally is considered to encompass the service in question.

A specialist rendering services outside of his specialty should use the codes and tariffs listed in the General Practice section of the Schedule

29. Differential Benefits:

- (a) Where only one benefit is listed, it shall apply to any physician rendering the service, regardless of specialty.
- (b) Consultation and visit benefit listings under the heading of Family Practice and Practice in general may be claimed by other branches of medicine if the listings do not appear elsewhere in the Schedule.

PREAMBLE

- (c) Specialists in paediatrics who practice allergy may claim specialist rates for their allergy services regardless of the age of their patients.

30. Referring Physician's Services:

- (a) For the services rendered prior to an operation, the referring physician should claim on a "fee-for-service basis", for example:
- (i) Home, Office or Hospital Visits as rendered.
 - (ii) In addition to (i) above, in acute cases, benefits may be claimed for detention if applicable and appropriate (refer to paragraph 21, above).
- (b) (i) For services rendered as an assistant during the operation, the referring physician should claim in accordance with paragraph 32, below.
- (ii) In cases in which the referring physician is required to be present in the interest of the patient but does not actually assist at the surgical procedure, he should claim a hospital visit for this service.
- (c) For the services rendered after the operation, the referring physician may claim on the basis of supportive care as outlined in the Schedule.

31. Pre-dental Assessment:

A physician, regardless of specialty, who is required to examine a patient in preparation for dental surgery under general anaesthesia may claim \$18.20 when he has seen the patient in the previous twelve months for a general assessment or \$27.30 if he has not seen the patient within the previous twelve months for a general assessment. If the examining physician also administers the anaesthetic only \$18.20 may be claimed in addition to the anaesthetic benefit, for the history and examination required by the hospital on admission (this is an exception to paragraph 33(a)).

32. Assistants' Services:

- (a) Time units are computed by allowing one unit (~~\$6.33~~) for each 15 minutes or part thereof of time (up to two hours) spent by the assistant. Time units for assistants' services for periods in excess of two hours per case are computed by allowing two units for each 15 minutes or part thereof. Time for purposes of these calculations includes scrub time and time spent in the operating room. If claims are being made in coded form (see Preamble, part B, paragraph 14), the suffix B should be added to the code for the procedure.
- (b) The basic units should be listed separately from the time units on the claim card. Benefits for assistants' services are determined by multiplying the listed basic units and the time units by ~~\$6.33~~. For cases commencing after 5:00 p.m. and before midnight or before midnight on Saturdays, Sundays and Holidays, the total benefit for assistant units (basic and time) is increased by 30% (E400B). For cases commencing after midnight and before 7:00 a.m., the total benefit for assistant units is increased by 50% (E401B).
- (c) When multiple or bilateral surgical procedures are done during the same anaesthetic, the assistant's benefits shall be based on the basic units for the major procedure plus time. When bilateral procedures or surgical revisions are carried out at separate times with separate anaesthetics, the assistant shall be entitled to receive full assistant's benefits for each procedure.

PREAMBLE

- (d) In surgical procedures requiring more than one assistant, benefits for the second assistant shall be computed on the same basis as for the first assistant.
- (e) When a surgeon requires an assistant at a procedure for which no assistant's units are listed, the assistant may calculate the total benefits applicable by taking the number of basic units used by the anaesthetist, adding his time units and multiplying the total number of units by ~~\$6.33~~ (See also (f) below.)
- (f) When assistants at surgery claim for procedures for which no assistants' units have actually been listed in the Schedule, the assistants should support their claims with letters of explanation as to why their attendance was required.

(g) Where the attendance of a physician is requested by the patient's other medical attendants for the sole purpose of monitoring or special supportive care, and when the physician is in constant attendance, the benefits shall be based upon 3 units plus time (E003B).

(h) When an anaesthetic has begun and the operation is cancelled prior to commencement of surgery, the assistant who has scrubbed but is not required to do more, should claim 3 basic units plus time units (E006B). If the operation is cancelled after surgery has commenced, the procedural basic unit plus time units will apply. If the procedure is cancelled prior to the induction of anaesthesia and the assistant is scrubbed, a subsequent hospital visit only may be claimed.

33. Anaesthetists' Services:

- (a) Benefits for anaesthetists' services are for all types of anaesthesia. The rates listed are for professional services, including pre-anaesthetic evaluation and post-anaesthetic follow-up and all immediate supportive measures, and does not include the cost of materials used. If an anaesthetist is asked by a physician to see a registered bed patient in consultation more than 36 hours prior to the administration of an anaesthetic, he may claim for a consultation as well as for rendering the anaesthetic. (This consultation is not a substitute for the pre-anaesthetic evaluation.) If an anaesthetist examines a patient prior to surgery and the surgery is cancelled prior to the induction of anaesthesia, he may claim a subsequent hospital visit for this service. When an anaesthetic has begun and the operation is cancelled due to a complication prior to the commencement of surgery, the anaesthetist should claim 4 basic units plus time (E006C). If the operation is cancelled after surgery has commenced, the procedural basic units plus time units will apply.
- (b) Basic units are listed for most procedures and include the value of all anaesthetic services except the actual time spent administering the anaesthesia, any modifying factors, or unusual detention with the patient (see paragraph 33(k, l,) below).
- (c) Except during maintenance of continuous conduction anaesthesia (G247 pg 100, P015 pg 109), time units are computed by allowing one unit for each 15 minutes or part thereof of anaesthesia time (up to two hours). Following the first two hours of anaesthesia, time units for periods in excess of two hours are computed by allowing two units for each 15 minutes or part thereof. Anaesthesia time begins when the anaesthetist is first in attendance with the patient for the purposes of creating the

PREAMBLE

anaesthetic state and ends when he is no longer in personal attendance (when the patient may be safely placed under customary post-operative supervision).

- (d) Time units and listed basic units should be indicated separately on the claim card. Benefits for anaesthetists' services are determined by multiplying the basic and the time units by ~~\$7.15~~ for certified anaesthetists and ~~\$6.60~~ for non-certified anaesthetists. For cases commencing after 5:00 p.m. and before midnight or before midnight on Saturdays, Sundays and Holidays, the total benefit for anaesthetic units (basic and time) is increased by 30% (E400C). For cases commencing after midnight and before 7:00 a.m., the total benefit for anaesthetic units is increased by 50% (E401C).

If claims are being made in coded form (see Preamble, part B, paragraph 14) the suffix C should be added to the code for the procedure.

- (e) In special cases where the anaesthetic services of more than one anaesthetist are deemed necessary in the interest of the patient the benefits shall be increased by 50% of that computed for the procedure; each anaesthetist to be entitled to one half of the total benefit.
- (f) When multiple or bilateral surgical procedures are done during the same anaesthetic, the anaesthetic benefits shall be based upon the basic units for the major procedure plus time. When bilateral procedures or surgical revisions are carried out at separate times with separate anaesthetics, the anaesthetist shall be entitled to receive full anaesthetic benefits for each procedure.
- (g) In procedures where no units are listed or with I.C., the basic units will be based upon those listed for a comparable procedure considering region and modifying conditions or techniques.
- (h) When a pump with or without an oxygenator and with or without hypothermia is employed in conjunction with an anaesthetic, the anaesthetic "Basic" will be 28 units; this replaces the listed basic units for the procedure. To compensate for variations in anaesthetic practice, special respiratory intensive care or detention for the purpose of intensive treatment of other types may be claimed separately under the appropriate headings.
- (i) An additional 10 units may be claimed when, in association with anaesthesia, "controlled hypotension" is carried out using any technique to deliberately lower and maintain the mean blood pressure at least 25% below the range or normal for that patient. The extra 10 units may be claimed under code E004C.
- (j) When unusual detention with the patient before or after anaesthesia is essential for the safety and welfare of such patient, the necessary time will be valued on the same basis as indicated for the anaesthetic time.
- (k) For detention not associated with anaesthesia detention rates and criteria apply (see paragraph 21 above).
- (l) When the attendance of the anaesthetist is requested by the patient's other medical attendants for the purpose of monitoring or special supportive care, and when the anaesthetist is in constant attendance the benefits shall be based upon 3 units plus time. If claims are coded, the code is E003C.

PREAMBLE

- (m) No additional claim should be made for introducing a catheter for continuous conduction anaesthesia, i.e. above the basic of 5 units plus maintenance units to a maximum of 6 units plus the number of time units required for the obstetrical delivery.
- (n) When a physician administers an anaesthetic and/or other medication prior to or during a procedure(s) and also performs a procedure(s) on the same patient, he should claim for the procedure(s) only. **However, when a physician administers a pudendal, femoral, intercostal, sciatic, ilioinguinal or iliohypogastric block in addition to performing a procedure, he may charge \$6.90 (G224) in addition to the fee for the procedure.**
- (o) When hypothermia is used by the anaesthetist in procedures not specifically identified as requiring hypothermia, the basic value is 25 units. This basic value replaces the basic value listed in the Schedule for the procedure. When the basic value claimed is 25 units, the anaesthetic service may be claimed under code E002C.
- (p) When one anaesthetist starts a procedure and is replaced by another part way through a surgical procedure or delivery, the first anaesthetist should claim the appropriate basic units plus time units and the second anaesthetist may claim for time units only. The second anaesthetist should use code E005C for such time units except in the case of continuous conduction anaesthesia for which code G247 or code P015 (plus E100C pertain (see also paragraphs 33(c) and 33(n), above), E005C qualifies for the surcharge E400C or E401C only if the case originally started within the time stated under paragraph 33(e) above. Each anaesthetist should state on his claim card which part of the anaesthetic is being claimed and the time begun and completed.
- (q) General anaesthesia for the purposes of this Schedule includes all forms of anaesthesia except local infiltration.

PREAMBLE

APPENDIX C

"EMERGENCY DEPARTMENT" CLAIMS

PHYSICIAN ON DUTY

The listings under the heading "Emergency Department—Physician on Duty" are meant to apply only to those circumstances wherein either casualty officers or other physicians **have elected or are required to be physically and continuously present in the Emergency Department or environs for an arranged designated period of time.**

When the Physician on Duty is required or elects to remain at the hospital, the special call surcharge will not apply. Use the "Emergency Department—Physician on Duty" listings for all physicians regardless of specialty.

When a 'casualty officer' is required to make a special visit to the Emergency Department prior to or after his regular arranged designated period of time on duty, he may claim the appropriate benefit under the General Listings plus the applicable special visit premium for the first patient assessed; all subsequent patients assessed during this visit to the hospital should be claimed under the Emergency Department—Physician on Duty listings.

When a physician is on duty in the Emergency Department, sees a patient and admits the patient to hospital, this physician may claim a minor or multiple systems assessment depending upon the service initially provided. Either the patient's attending physician or the emergency department physician (but not both) may render and claim the hospital "admission assessment". If the emergency department physician instead of the attending physician provides the admission general assessment, he may claim a general re-assessment (C004) as well as the initial assessment provided that both services are rendered separately.

SPECIAL VISIT TO EMERGENCY OR O.P.D.

Consultation

1. Consultation, patient not admitted:
The benefit for the consultation (or repeat consultation) plus the appropriate special visit surcharge (K99-) may be claimed.
2. Consultation, patient admitted:
 - (a) The benefit for the consultation (or repeat consultation) plus the appropriate special visit surcharge (K99-) followed by hospital visits (if rendered) may be claimed. However, if the consultant also is the "most responsible physician", he may not also claim a hospital in-patient consultation, repeat consultation, general or specific assessment, general or specific reassessment since the initial consultation rendered in the emergency department serves as the admission assessment.
 - (b) If the consultant is not also the most responsible physician, the latter may claim the appropriate admission assessment.

PREAMBLE

Assessment:

1. **Assessment, patient not admitted —**
The benefit for the assessment (or re-assessment) plus the appropriate special visit surcharge (K99-) may be claimed.
2. **General/specific assessment plus patient admission —**
The benefit for the general or specific assessment plus the appropriate special visit surcharge (K99-) followed by hospital visits may be claimed. However, the admitting physician may not also claim a hospital in-patient general/specific assessment or reassessment since the initial general/specific assessment rendered in the emergency department serves as the admission.
3. **Minor/intermediate assessment plus patient admission —**
The benefit for the minor or intermediate assessment plus the appropriate special visit surcharge (K99-) may be claimed. In addition, the admitting physician may claim for a hospital in-patient general or specific reassessment if rendered.

Procedure:

Except for procedures for which the listed benefits specifically include the associated consultation or other assessment, claims may be made for both the procedure and the assessment.

Note:

If a physician has an office in the hospital and is called to assess a patient in the Emergency Department or O.P.D., the special visit premiums do not apply.

PREAMBLE

APPENDIX D

1. Surgery to alleviate significant physical symptoms or to restore or improve function to any area altered by disease, trauma or congenital deformity normally is a benefit under The Ontario Health Insurance Plan. Surgery solely to alter or restore appearance is not a benefit of OHIP except under the circumstances as listed in the following policy.
2. Emotional, psychological or psychiatric grounds are not considered sufficient reason for OHIP coverage of surgery for alteration of appearance except under exceptional circumstances. On request of the attending physician, exceptions may be made on an independent consideration basis if the proposed surgery is to alter a significant defect in appearance caused by disease, trauma or congenital deformity, *and* if the surgery is
 - recommended by a Mental Health Facility (as designated by The Mental Hospitals Act) or equivalent, or
 - recommended by a Correctional Institution, or
 - essential in order to obtain employment as documented by the attending physician *and* either by a Canada Manpower Employment Centre or by an employer with regard to a specific job, or
 - performed on a patient who is less than 18 years of age and the defect is in area of the body which normally and usually would not be clothed.
3. In establishing this policy, it has been recognized that
 - peer acceptance in our society often is influenced disproportionately by the facies,
 - children are especially susceptible to emotional trauma caused by physical appearances,
 - some procedures traditionally have been accepted as benefits of Health Insurance Plans inspite of the obvious cosmetic nature of these procedures.
4. Surgery to revise or remove features of physical appearance which are familial in nature is not a benefit of OHIP.
5. Within the context of this policy, the word “disease” does not include the normal sequelae of aging. Surgery to alter changes in appearance caused by aging is not a benefit of OHIP.
6. Within the context of this policy, the word “trauma” includes trauma due to treatment such as surgery, radiation, etc.
7. The phrase “reasonable period of convalescence” admittedly is imprecise, but it does not seem reasonable to set a definite time interval of convalescence following each procedure. Independent consideration will be given to the questionable cases.
8. Authorization from OHIP is not required for all surgery to alter appearance. It is required only for those categories of procedures for which some cases may not be a benefit under OHIP policy.

PREAMBLE

Surface Pathology

1. Trauma Scars

(a) Neck or Face

- Includes ears and non-hair bearing areas of the scalp.
- Repair of all such scars is a benefit of OHIP.
- Repair procedures will depend upon the lesion but may include excision, revision, dermabrasion, etc. Rhytidectomy procedures to remove scar prominence, however, are not a benefit of OHIP.
- OHIP authorization for repair of such scars is not required but manual assessment of the claims will be necessary to ensure that the most appropriate procedure codes are used.

(b) Scars in other Anatomical Areas

- Repair of scars which interfere with function or which are significantly symptomatic (pain, local irritation, etc.) is a benefit of OHIP.
- Scars with no significant symptoms or functional interference
 - (i) Repair is a benefit if such repair is part of a pre-planned post-traumatic (including post-surgical) staged process. OHIP notification must be included as part of the planning process.
 - (ii) Other post-traumatic scar revision is not a benefit of OHIP.
- OHIP authorization is required for all scar repair procedures in areas other than the face or neck.

2. Keloids

(a) Head or Neck

- The repair of all such keloids is a benefit of OHIP.
- Repair procedures may include excision and/or injection.
- Although no pre-authorization is needed, claims for excision of keloids are assessed manually to ensure that the most appropriate code is used.

(b) Excision of keloids in other areas

- Not a benefit of OHIP unless significantly symptomatic or there is functional impairment.
- OHIP authorization is required.

3. Tattoos

(a) Face or Neck

- Excision or destruction of all such tattoos is a benefit of OHIP.
- Authorization is not required but adjudication of repair procedures will be identical to that for scars in these areas.

(b) Other Anatomical Areas

- Excision or destruction of concentration camp or P.O.W. tattoos is a benefit of OHIP. Otherwise, normally not a benefit of OHIP.

PREAMBLE

4. Benign lesions such as naevi, keratoses, spider naevi, papillomata, neurofibromata

(a) Face or Neck

- Excision or destruction of these lesions is a benefit of OHIP.
- Authorization is not required.

(b) Other Anatomical Areas

- Normally not a benefit of OHIP if removed for alteration of appearance, only, rather than for medical necessity or because of clinical suspicion or evidence of malignancy.
- Removal of very large lesions in patients less than 18 years of age is a benefit of OHIP.
- Authorization is not required but a statement of the reason for removal must accompany the claim.

5. Hair Loss

(a) Head or Neck

(i) Patients less than 18 years of age

- Repair is a benefit for non-hereditary etiologies.
- Authorization is not required. However, if it is possible that a planned staged procedure will extend beyond the age limit, pre-authorization should be obtained, since it will be necessary after the 18th birthday.

(ii) Post-traumatic

- Repair to the area of traumatic hair loss is a benefit of OHIP only if carried out within a reasonable period of convalescence.
- OHIP authorization is required.

(iii) Other Etiology

- Not a benefit of OHIP.

(iv) Usual repair procedures may include skin shifts or flaps, skin grafts, or hair plugs.

(b) Other Anatomical Areas

- Not a benefit of OHIP.

6. Epilation of Hair

(a) Face

- This procedure is a benefit of OHIP only for those patients with documented endocrine abnormality or drug-induced hirsutism.

(b) Other Anatomical Areas

- Not a benefit of OHIP.

(c) — OHIP authorization is required.

.PREAMBLE

7. Redundant Skin

- (a) Excision of redundant skin for elimination of wrinkles, etc. is not a benefit of OHIP.
- (b) Blepharoplasty is not a benefit of OHIP unless there is documented evidence of medical necessity such as visual field defect caused by the redundant eyelid skin.
- (c) OHIP authorization is required.

Sub-Surface Pathology

1. Congenital deformities

(a) Head or Neck

- Repair is a benefit of OHIP except for:
 - surgery to revise or remove features which are familial in nature.
 - surgery to correct "outstanding ears" in patients who are eighteen years of age or over.
- Authorization is not required but manual assessment of the claims will be necessary to ensure that the most appropriate procedural codes are used.

(b) Other Anatomical Areas

- Normally not a benefit of OHIP if surgery is for alteration of appearance only.

2. Post-Traumatic Deformities

- Reconstructive procedures are a benefit at the acute stage; within a reasonable period of convalescence; or if part of a pre-planned staged process of repair.
- Repair of procedures may include bone revision, tissue shifts and grafts, prosthesis implantation, etc.
- OHIP authorization is required for repairs beyond the acute stage.

3. Deformities resulting from local disease

(such as loss or distortion of bone, muscle, connective tissue, adipose tissue, etc.)

(a) Head or Neck

- Reconstructive procedures for significant abnormalities are a benefit at the acute stage; during a chronic disease process; within a reasonable period of convalescence; or if part of a planned staged process of repair initiated during one of these periods.
- Repair procedures normally could include tissue grafts, flaps or shifts, bone revision, prosthesis insertion, etc.
- Face lifts, modified face lifts, brow lifts, etc. are not a benefit of the Plan if skin, only, is involved in the procedure. However, a repair such as ptosis repair or face lift with underlying slings is a benefit of OHIP if the procedure is to correct significant deformity following stroke, cancer, VIIth nerve palsy, etc.
- OHIP authorization is required for repair of deformities resulting from local disease.

PREAMBLE

(b) Other Anatomical Areas

- Not a benefit of OHIP if the correction is for appearance, only.

4. Breast Surgery

(a) Augmentation Mammoplasty

- This procedure is a benefit of OHIP unilaterally or bilaterally for a female patient with breast aplasia.
- It is an OHIP benefit unilaterally for a female patient with a severely hypoplastic breast when the other breast is not also hypoplastic.
- A "balancing" augmentation mammoplasty may be allowed on an independent consideration basis for correction of unilateral hypoplasia when performed in association with approved contralateral reduction mammoplasty.
- The correct code for the repair procedure is R112.
- OHIP authorization is required.

(b) Post-Mastectomy Reconstruction

- Unilateral or bilateral breast reconstruction is a benefit of OHIP when the procedure is subsequent to, as listed in the Schedule of Benefits, total or partial mastectomy (including wedge resection) or prophylactic mastectomy.
- Authorization is not required but all claims are manually assessed to determine the benefit appropriate to the procedure rendered.

(c) Reduction Mammoplasty

- Reduction Mammoplasty is a benefit for female patients only, where there is significant associated symptomatology such as intertrigo, neck or back pain or shoulder grooving. Ptosis and/or size are not sufficient grounds for OHIP coverage of reduction mammoplasty.
- Unilateral Reduction Mammoplasty may be a benefit of the Plan if there is gross disproportion present, or in association with approved unilateral augmentation mammoplasty or post mastectomy reconstruction of the contralateral breast.
- OHIP authorization is required.

(d) Male Mastectomy

- This procedure is a benefit of the Plan.
- The appropriate code for the procedure is R115 or R116.
- Authorization is not required.

(e) Accessory breasts or accessory nipples

- Excision of such accessory tissue is a benefit of the Plan.
- The appropriate code should be used from the Schedule listings under Skin and Subcutaneous tissue.
- Authorization is not required.

PREAMBLE

5. Excision of excess fatty tissue

- This is a benefit of the Plan only if there is significant associated symptomatology such as intertrigo, pain or excoriations.
- When performed for alteration of appearance, the removal of redundant skin and fat, from the abdomen, extremities, etc. is not a benefit of the Plan.
- OHIP authorization is required.

Sex-Reassignment Surgery

- (1) Sex-reassignment surgical procedures are a benefit of OHIP only if they are performed on patients who have completed the Gender Identity Clinic program operated by the Clarke Institute of Psychiatry in Toronto. Moreover, claims are accepted for payment only for those patients for whom the Clinic has recommended that surgery take place. This surgery need not take place in Toronto or even in Ontario. Surgery recommended by the Clinic which takes place outside the Province of Ontario may be approved for payment at rates in accordance with the current OHIP Schedule of Benefits.
- (2) Within the foregoing guidelines, reconstruction of genitalia and mastectomy are benefits of the Plan. However, since the hormonal treatments associated with sex-reassignment themselves give rise to breast enlargement, augmentation mammoplasty or breast reconstruction in a male to female conversion normally would not be a benefit of OHIP, in keeping with the previously outlined policy regarding breast surgery in females.
- (3) OHIP authorization is required.

Complications and/or Revisions

- (1) The treatment of acute medical or surgical complications resulting from surgery for alteration of appearance and/or function is a benefit of the Plan whether or not the original surgery was covered by OHIP. This includes complications resulting from trans-sexual surgery (such as breakdown of the artificial vaginal wall). No authorization is required.
- (2) Revision of surgery for alteration of appearance, because of undesirable results, is a benefit of the Plan if the original surgery was a benefit *and* if the revision either is part of a pre-planned staged process or occurs within a reasonable period of convalescence. Correction of the effects on appearance which are due to complications, is a benefit of the Plan if it is carried out within a reasonable period of convalescence. OHIP authorization is required only if the original surgical procedure, if it had been carried out at the time of the proposed revision, would have required such authorization. For example, authorization would not be required for revision in a 16-year-old of a repaired congenital ear deformity. However, if the child is 18 years or older at the time of the revision, authorization would be required.

NUCLEAR MEDICINE — IN VIVO

Column T — is the technical benefit for the production of records, radiopharmaceutical agents, apparatus, premises, technical services, administration and secretarial services.

Column P₁ — is the professional benefit for supervision of the procedure, appropriate patient interview and/or examination, correlation of related data, interpretation of results, and provision of a written report. The physician must be present for supervision of the procedure to the extent that he or she may intervene personally, if required.

Column P₂ — is the professional benefit for interpretation of results and provision of a written report. If the physician is not present or if any visit is claimed in conjunction with that Nuclear Medicine procedure, the lesser professional benefit (P₂) should be claimed.

Notes: (1) The total benefit is arrived at by adding T plus P₁ (first code listed, e.g. Z006) or by adding T plus P₂ (second code listed, e.g. Z925).

When coding the total benefit use suffix A

When coding the technical portion only use suffix B

When coding the professional portion only use suffix C.

(2) If quantification or data manipulation is carried out in addition to visual inspection of imaging studies, add 30% to the appropriate professional benefit. Such activity must add significant diagnostic information not available by inspection alone and does not include simple image enhancement techniques such as smoothing, background subtraction, etc. Recording of images on videotape for replay and production of images on the video display of a computer do not in themselves justify the additional benefit.

For services for which this additional 30% is appropriate the correct code prefix is Y instead of Z. For example for Arteriography plus data manipulation, the appropriate codes are Y006/Y925 instead of Z006/Z925.

The benefits for cardiac wall motion studies and calculation of ventricular ejection fraction (Z010 and Z012) already include an allowance for data manipulation and no additional benefit may be claimed.

(3) If examination of Brain, Lung, Liver or Spleen is limited to one view, the benefit (T and P₁ and P₂) is to be reduced by 50% (use codes Z036/Z957, Z041/Z935, Z080/Z990 respectively).

(4) Repeat studies on the same day may be claimed only after exercise or drug intervention.

(5) The phrase "nuclear medicine specialist" should be interpreted as "nuclear medicine physician", since not all physicians practising nuclear medicine are certified as specialists in this discipline by the Royal College of Physicians and Surgeons.

(6) See also Preamble, part B, paragraph 1(i), 1(j) and 1(k).

RADIATION ONCOLOGY (THERAPEUTIC RADIOLOGY)**Code RADIOTHERAPY (including Therapeutic Isotopes) \$**

The listed benefits are for the professional services of a certified therapeutic radiologist, the services of a specialist for the intracavitary or interstitial application of radium or sealed sources and the services of a specialist using non-sealed sources of radioisotopes in a laboratory authorized by the Atomic Energy Control Board of Canada. Other medical services to the patient are not included in these figures. The cost of material is additional.

DIAGNOSTIC RADIOLOGY

Column T — The benefit for radiological examination including the production of radiographs, supplying of contrast media, apparatus; premises, technical services, administration and collection costs.

Column P — The benefit for consultation between radiologist and referring physician, fluoroscopy, interpretation of radiographs and fluoroscopic findings and supervision of x-ray services by a radiologist.

From 1980 to 1982 OHIP paid a surcharge on the technical fees to private radiology clinics in recognition of the increase in film cost.

In 1982 approximately 3% has been added to the technical fees for this purpose.

Hospital out-patient technical fees will be paid at 97% of the technical fee listed in the Schedule of Benefits.

Notes and Interpretations:

1. Private offices and hospital outpatient departments will claim the sum of Columns T plus P.

2. Radiologists should use Column P as a guideline for negotiating remuneration with hospitals.

3. Benefits for clinical procedures related to x-ray examination are listed in the following section, or under Diagnostic and Therapeutic or Surgical Procedures. "Clinical Procedures", in this context, are those by which contrast media are introduced, except oral or rectal administration for study of the alimentary tract, and intravenous injections, which are an integral part of the study, performed by the physician collecting the benefit for the procedure.

4. If less than the minimum number of views are performed, reduce listed benefits by 25% (this reduction applies to both technical and professional component). If more than the minimum number of views are performed, no further benefit is applicable unless specifically listed.

5. If the examinations which are requested by the referring physician yield abnormal findings or if they would yield information which in the opinion of the radiologist would be insufficient, governed by the needs of the patient and the requirements of the referring physician, the radiologist may add further views and claim for them (if listed).

6. Claims for X-ray services, when referred by an Osteopath, Chiropodist or Chiropractor to a private X-ray facility are not benefits of O.H.I.P.

7. Claims for X-ray services, when referred by an Osteopath or Chiropractor to a hospital outpatient department are benefits.

8. Coding

— When coding the total benefit use suffix A.

— When coding the technical portion only use suffix B.

— When coding the professional portion only use suffix C.

— When coding claims from certified radiologists (33) use the listed codes (i.e. X001-X230) plus the appropriate suffix.

— When coding claims from non-certified radiologists increase the first numerical digit in the listed codes by 5 (i.e. X501-X730) plus the appropriate suffix.

DIAGNOSTIC RADIOLOGY

9. When a radiologist is asked to x-ray one extremity only, no additional claim should be made for comparison x-rays initiated by the radiologist.

10. Nephrotomography is covered by the listings for intravenous pyelogram and planigram.

11. A stereo pair is to be counted as two views.

12. No extra claim should be made for rapid sequence I.V.P.

13. No additional claim is warranted for the use of the image intensifier in diagnostic radiology.

■ **Note:** *If interpretation only is claimed refer to M.P.B. #081.*

14. Fluoroscopy claims should not be submitted for any examination performed by the radiologist where "fluoroscopy" is generally regarded as an integral part of the examination, e.g. examinations of the G.I. tract, urinary tract, special procedures.

15. "Colon — air contrast" may be claimed when performed according to generally accepted criteria. The colon should be scrupulously prepared. Five to eight full size views of the abdomen should be obtained after fluoroscopically controlled introduction of air and barium.

16. "Oesophagus, stomach and duodenum, double contrast" presupposes the introduction of gas, the use of antifoam agent and a suitable barium mixture.

17. Abdomen and chest studies should not be routinely done and claimed in gastrointestinal examinations.

18. Three or more views of the chest should not be done routinely and claimed when a chest examination is requested.

19. Chest studies should not be routinely done and claimed in mammography cases.

20. Nasal bones or accessory nasal sinuses should not be routinely claimed in skull examination requests.

21. Abdomen and/or pelvis should not be routinely claimed in lumbar spine examination requests.

22. A survey film of the abdomen is a single view. The ordering of additional films should be left to the discretion of the radiologist who should determine which examination is adequate for a specific patient. Obviously, if progress of a long tube is being followed, a survey film is sufficient. If, however, an intestinal obstruction is being followed, a single film is usually inadequate.

23. Conventional films of the spine should not be routinely done and claimed before myelography. The necessity of having plain film studies of the spine prior to interpreting the myelographic studies is obvious. It is not essential, however, that these be done at the institution where the myelogram was done. If they had been done at an outside office, then it is a matter for the radiologist and the referring physician to have the films available. If they cannot be made available to the radiologist, it is an acceptable practice for him to do the required examination of these areas and to claim for them so that they may be available for interpretation along with the myelographic study.

24. Pharynx and oesophagus (cine or videotape) — X106 should not be claimed routinely with X108 and X109 but only when specifically indicated.

DIAGNOSTIC RADIOLOGY

25. Lumbar or lumbosacral spine (X028, X205, X206) does not include the entire sacrum. However, an examination of the sacrum may be carried out and claimed only when specifically indicated.
26. The listed benefits apply to unilateral examinations except for central structures or as otherwise specified.

CLINICAL PROCEDURES ASSOCIATED WITH DIAGNOSTIC RADIOLOGICAL EXAMINATIONS

- Note:**
1. These procedural benefits are intended to cover compensation for the professional service of placing an instrument and, if done, of introducing contrast media (except oral or rectal administration for study of the alimentary tract). Injection of materials to enhance the effect of contrast media is included in the procedure benefits.
 2. Radiological charges are additional: see similar entries under section on RADIOLOGY.
 3. Where similar procedures are done for diagnostic physiological studies of non-radiological nature, e.g. cardiac catheterization or intra-arterial infusion, they are listed separately under Surgery or Diagnostic and Therapeutic Procedures. See Index.

DIAGNOSTIC AND THERAPEUTIC PROCEDURES

- Code

With a few exceptions specifically indicated below, the listed procedural benefits are for the procedure(s) alone.
Consultations or visits when such services are rendered, may be claimed in addition to the procedure(s).
- G700

When a procedure(s) is the sole reason for a visit, add \$3.15 per patient visit for those procedures marked (+) regardless of the number of procedures carried out during that visit. However, if the patient visit is to a physician's office or a diagnostic facility controlled directly or indirectly by a physician who has examined (or is about to examine) the patient and referred the patient to such a diagnostic facility, G700 may not be claimed under these circumstances.
- Note:

G700 is not payable to a hospital department.

Schedule Interpretations:

1. If in the course of any office or home visit (see Preamble, Part B), a haemoglobin screen and/or haematocrit (any method or instrument) is carried out, code G481 may be claimed for this service (see page 89). Urinalysis may be claimed with or without an associated visit to a physician's office, except for screening and urinalyses which are not medically necessary (see Preamble, part A, paragraph (2)).
2. Some benefits for Diagnostic and Therapeutic Procedures have the technical and professional components listed separately. However, when only one benefit is listed for a service, it represents the professional component only. The technical component includes the salaries of support staff, equipment depreciation or lease costs, supplies and costs associated with the preparation of a written report. The professional component includes the clinical supervision of the diagnostic facility, interpretation of the test results and a written report.
3. The Preamble applicable to Surgical Procedures also applies, where appropriate, to Diagnostic and Therapeutic Procedures.

ALLERGY

Note: If, in addition to the allergy injection, the patient requires a minor assessment only of his allergic condition, the physician may claim for code G212 only. However, if a patient requires a more complete assessment of his condition or if a patient presents for an allergy injection and has an acute infectious condition, albeit of the respiratory system, or some other unrelated condition any of which would have otherwise required a separate office visit, the physician is entitled to claim for the appropriate assessment as well as the injection.

OBSTETRICS

1. Obstetrical care is divided into its components. A prenatal general assessment may be claimed and shall comprise a full history, an inquiry into, and an examination of all parts or systems (and may include a detailed examination of one or more parts or systems), an appropriate record, and advice to the patient. Subsequent prenatal visits shall comprise the necessary history and inquiry, examination, appropriate record, pregnancy related counselling and advice to the patient. Normal (uncomplicated) prenatal care includes a prenatal general assessment visit, then monthly visits to 32 weeks, followed by visits every 2nd week to 36 weeks, then weekly visits until delivery. However, complicated pregnancies may require additional visits. Labour — delivery and postpartum care are listed separately.

2. If an uncomplicated obstetrical patient is transferred from one physician to another physician for obstetrical care, the appropriate assessment fee may be charged by the second physician, followed by prenatal visit fees. If the obstetrical patient is referred to a consultant for obstetrical care because of the complexity, obscurity or seriousness of the case, the consultant may claim for a consultation in addition to the prenatal visit benefits.

3. Illnesses resulting from or associated with pregnancy or false labour requiring added home or hospital care should be claimed on a per visit basis.

4. When a pregnant patient visits her physician for a condition unrelated to her pregnancy and apart from her routine scheduled prenatal visits, the physician may charge the appropriate visit benefit.

5. The listings under heading Referred Services may be claimed by the consultant physician in addition to the appropriate consultation or visit benefit. They may not be claimed by physicians providing obstetrical care to their own patients.

6. If a consultant is requested by another physician to perform a surgical induction of labour, or emergency removal of a Shirodkar suture (except at delivery) assuming someone else has inserted the suture, the consultant should claim a consultation benefit for this (these) service(s).

7. Medical induction or stimulation of labour may be claimed once per pregnancy by any one physician and only when carried out for a recognized obstetrical complication(s) and does not qualify for detention benefits.

8. The listings for "Attendance at labour and attendance at delivery" and for "Attendance at delivery" may not be claimed by any physician when a patient is transferred to a second physician for normal obstetrical care.

9. Ordinary immediate care of the newborn is included in the labour-delivery benefit and, when the service is rendered by the anaesthetist, it is included in the anaesthetic benefit. Active resuscitation of the newborn provided by any physician may be claimed under codes G521, G522 (Life Threatening Emergency Situation).

10. When a physician provides newborn care and also performs a circumcision on the same newborn or infant, both services may be claimed.

11. When an obstetrician routinely transfers all newborns to the care of another physician, the latter should not claim consultation benefits for these "transferrals". If the baby is well, the physician may claim the newborn care in hospital benefit of \$37.80 plus \$37.80 for code H267 (page 51), attendance at maternal delivery (if this service is given). If the baby is sick, the physician may claim for a general assessment and for attendance at maternal delivery (if

OBSTETRICS

this service is given) plus daily visits for as long as his/her services are required. If an obstetrician normally cares for newborns himself or transfers the care of newborns to a general or family physician but refers a newborn to a paediatrician because of the complexity, obscurity or seriousness of the case, the latter may claim for his service according to the following guidelines:

- (a) If attendance at maternal delivery is rendered, code H267 may be claimed and, if a general assessment of the baby is carried out, code C263 may be claimed as well. However a post-natal consultation on the baby (C265) may not be claimed in addition to H267.
- (b) If a paediatrician has not attended the delivery, a post-natal consultation may be claimed (if this service is rendered) even though a pre-natal consultation may already have been claimed.

■ (MPB #229)

12. When a physician provides prenatal visits, attends labour, assists or administers the anaesthetic at Caesarian Section and visits the patient post-operatively, he is entitled to claim for prenatal visits, attendance at delivery, assistant's or anaesthetist's benefits for Caesarian Section, and postoperative supportive care while the patient is in hospital.

13. Physicians may claim for assisted breech delivery (P020) when the service includes spontaneous delivery to the umbilicus, with extraction of the shoulders, arms and after coming head.

14. The Preamble applicable to Surgical Procedures also applies to obstetricians, where appropriate.

15. The premiums applicable to Obstetrics are as follows: When Caesarian sections or the surgical management of ectopic pregnancies commence after 5:00 p.m. and before midnight or on Saturday, Sundays and Holidays, increase the procedural fee(s) by 20% (E409). For all other obstetrical procedures e.g. deliveries occurring on Saturdays, Sundays and Holidays, increase the procedural fee(s) by 20% (E409). When time of delivery occurs after midnight and before 7:00 a.m. any night during the week, increase the procedural fee(s) by 50% (E410). These premiums are not chargeable in addition to the obstetrical procedural fee(s) if labour is induced by medical and/or surgical means by the same physician. However, a forewater A.R.M. or oxytocin augmentation of labour carried out on a patient in desultory labour does not constitute induction.

SURGICAL PROCEDURES

Preamble:

FOR DEFINITION OF THE ROLE OF THE REFERRING PHYSICIAN, SEE REFERRING PHYSICIAN SERVICES ON PAGE 12.

FOR DEFINITION OF THE ROLES OF THE ANAESTHETIST, SEE ANAESTHETIST SERVICES ON PAGE 13.

- (1) The surgical benefit (except for fractures or dislocations requiring no reduction and other procedures either marked "I.O.P." or including complete care) includes hospital visits rendered by the surgeon two days prior to surgery, the operative procedure, the post-operative care usually associated with the procedure(s) rendered by the surgeon while the patient is in hospital, and one office visit for follow-up examination, if necessary. If the surgeon is required to provide listed services not usually associated with the procedure(s), he may claim for these. If special visits to hospital are required and rendered, the surgeon may claim the appropriate special visit premium even if the basic hospital visits are not chargeable.

The surgical benefit as noted above does not include the major pre-operative visit (e.g. consultation, general assessment, etc.) at which the decision to operate is made, regardless of the time interval between the major pre-operative visit and the surgery. The hospital or day-surgery admission assessment (consultation, repeat consultation, general assessment or re-assessment, specific assessment or re-assessment) may not be claimed by the surgeon unless it happens also to be the major pre-operative visit as defined above. Visits rendered prior to admission (excluding admission assessments) and hospital visits (minor assessments) rendered prior to two days before the surgery may be claimed in addition to the surgical benefit. For patients remaining in hospital because of complications, visit benefits may be claimed in addition to the surgical benefit after the second post-operative week. The starting point for calculating the appropriate number of hospital visits allowed in accordance with the Schedule after the second post-operative week is the date of admission if the operating surgeon has admitted the patient or the date of referral if the patient has been referred to the operating surgeon while in hospital.

The listed surgical benefit includes the generally accepted surgical components of the procedure. The listed benefit of a procedure normally also includes any necessary repair of iatrogenic damage occurring during the course of the surgery.

- (2) When a physician makes a special trip to perform a non-elective surgical procedure during the daytime (Monday to Friday), he may claim the appropriate special visit, a consultation if the case is referred (except for fractures or dislocations requiring no reduction) or the appropriate assessment if the case is not referred plus the procedural benefit(s). When the special visit is to deal with fractures or dislocations requiring no reduction, a minor assessment is the appropriate benefit to be added to the special visit and fracture or dislocation benefits. If the non-elective procedure is carried out at night (after 5:00 p.m. and before 7:00 a.m.), or Saturdays, Sundays and Holidays, the physician may claim a special visit applicable to the consultation or assessment and the surgical premium E409 or E410 (see Preamble, Part B, paragraph 20).
- (3) When more than one operative procedure (non-I.O.P.) is performed by the same surgeon at the same time and/or under the same anaesthetic or during the same hospitalization for the same condition, the benefit shall be the full benefit for the major procedure plus 85% of the listed benefit(s) for additional procedures, unless otherwise indicated in the Schedule and except where such combined operations are independently specified as items in

SURGICAL PROCEDURES

this Schedule. This paragraph applies to staged procedures and to each side of bilateral procedures, but does not apply in the case where a normal appendix or simple ovarian or para-ovarian cyst is removed incidentally during an operation, for which no claim should be made (see also OHIP Bulletin #4122, July 3, 1979).

- (4) When a subsequent operation(s) becomes necessary for the same condition because of a complication, the full benefit will apply for each procedure.
- (5) When a subsequent non-elective operation(s) is performed for a new condition, the full benefit will apply for each procedure.

When a subsequent elective procedure is done for a different condition during the same hospitalization, the benefit for the lesser procedure shall be reduced by 15% unless performed by another surgeon in which case the full benefit will apply.
- (6) When different operative procedures are done by two different surgeons under the same anaesthesia for different conditions, the benefit will be 100% of the listed benefit for each condition. Under these circumstances, the basic assistants' units should not be claimed by either operating surgeon; however time units may be claimed when appropriate.
- (7) As a general rule, when elective bilateral procedures are performed by two surgeons at the same time, one surgeon should claim for the surgical procedures and the other surgeon should claim the assistant's benefit.
- (8) Where two surgeons are working together in surgery in which neither a team benefit nor other method of claiming is set out in the schedule, the surgeon should identify himself as the operating surgeon and claim accordingly; the surgeon who is assisting him should identify himself as such and claim the assistant's benefit. Where the second or assistant surgeon is brought into the case on a consultation basis, he may, when indicated, claim a consultation as well but should be prepared to justify it on an I.C. basis. If the nature or complexity of a procedure requires more than one operating surgeon each providing a separate service in his own specialized field, each surgeon may claim the full listed benefit for the procedure he performs. This, however, does not apply to those cases wherein an additional surgeon(s) is involved simply because he may be more skillful at carrying out a procedure which the first surgeon normally should be able to do. Neither does it apply to those cases wherein one or more additional surgeons perform components of a main procedure for which there is a listed combined tariff. For the latter two circumstances, the first portion of this paragraph pertains and the additional surgeon(s) may claim assistant's benefits only, along with consultation and visits if appropriate. If a surgeon, in addition to performing a specialized portion of the procedure, acts as an assistant during the remainder of the procedure, he may also claim time units (but not basic units) for assisting.
- (9) Unless otherwise stated, the listed procedural benefits are for unilateral procedures.
- (10) When a procedure is performed, a procedural benefit, if listed, should be claimed. Substitution of consultation and/or visit benefits for procedural benefits (except as in paragraph 11), is not in keeping with the intent of the schedule.
- (11) For fractures and dislocations requiring no reduction and for other procedures which include complete care, when the listed benefit is less than the consultation benefit and the case is referred, the physician may claim for the consultation instead of the surgical benefit. However, to avoid the consultation being counted as such under the OHIP limi-

SURGICAL PROCEDURES

tation rules on the number of consultations allowed per year, the physician should claim for the consultation under the surgical procedure nomenclature or code. Since the consultation is replacing a procedural benefit which includes the pre- and post-operative and surgical care, no additional claims beyond the consultation should be made.

- (12) If a physician performs a minor surgical procedure and during the same visit assesses and treats the patient for another completely unrelated and significant problem involving another body system, the physician may claim for the procedure as well as for the appropriate assessment.
- (13) Where a procedure is specified as "Independent Operative Procedure (I.O.P.)", the procedural benefit may be claimed in full. In addition, visit benefits, consultations etc. may be claimed when both services are actually rendered. When an I.O.P. procedure is done in conjunction with non-I.O.P. procedure(s), no claim may be made for the consultation, pre- and post-operative care related to the I.O.P. procedure. The listed I.O.P. benefit may be claimed in these circumstances along with the benefits for the non-I.O.P. procedure(s) and the related major pre-operative visit in accordance with paragraph (1) of this Preamble. When multiple or bilateral I.O.P. procedures are performed at the same time by the same physician, the listed procedural benefits may be claimed in full but the pre- and post-operative benefits should be claimed as if only one procedure had been performed.
- (14) When procedures are specifically listed under Surgical Procedures, physicians should use these listings rather than applying one of the plastic surgery benefits listed under operations on skin and subcutaneous tissue.
- (15) For excision of tumours not specifically listed in this Schedule, claims should be made on an I.C. basis (code **R993**). Independent consideration also will be given (under code **R990**) to claims for other unusual but generally accepted surgical procedures which are not listed specifically in the Schedule (excluding non-major variations of listed procedures). In submitting claims, physicians should relate the service rendered to comparable listed procedures in terms of time and difficulty (see Preamble, Part B, paragraph 22).
Independent consideration also will be given (under code **R991**) to out-of-Province claims for generally accepted surgical procedures which are not available in Ontario, for which a patient has been referred by an Ontario physician and for which prior approval from OHIP has been obtained. (See OHIP Bulletin #4148)
- (16) **Cosmetic or Aesthetic Surgery:** means a service to enhance appearance without being medically necessary such as surgery for correction of facial wrinkles, surgery for eyelid wrinkles (symmetrical and without a functional problem), rhinoplasty for appearances only, etc. These services are not benefits of OHIP. (See Preamble, Appendix A).
- (17) **Reconstructive Surgery:** is surgery to improve normal appearance and/or function to any area altered by disease, trauma or congenital deformity. Although surgery solely to restore appearance may be included in this definition under certain limited conditions, emotional, psychological or psychiatric grounds normally are not considered sufficient additional reason for OHIP coverage of such surgery.

Appendix D of the Preamble to this Schedule describes the conditions under which surgery for alteration of appearance, only, may be a benefit of the Plan.

Physicians should submit requests to their District OHIP office for authorization of any

SURGICAL PROCEDURES

proposed surgery which may fall outside of OHIP coverage. Among those procedures for which requests *must* be submitted before the procedure is performed are:

- (a) augmentation mammoplasty (excluding post-mastectomy breast reconstruction)
- (b) blepharoplasty
- (c) dermabrasion (excluding face and neck)
- (d) epilation of hair
- (e) face lift
- (f) hair transplant
- (g) panniculectomy, lipectomy
- (h) reduction mammoplasty
- (i) rhinoplasty or septorhinoplasty
- (j) scar revision (excluding face and neck)
- (k) sex-reassignment surgery
- (l) tattoo removal (excluding face and neck)

Requests for authorization of proposed surgery should identify the medical necessity of the surgery. Moreover, since it is the procedure for which the authorization request is being made, it must be adequately described and accurately related to the condition it is intended to alleviate.

Note that when a surgical procedure is not a benefit of the Plan, the associated anaesthetist's charges, assistant's charges and hospital costs normally also are excluded from OHIP coverage.

- (18) Procedural benefits (non I.O.P.) include the removal of sutures where both services are rendered by the same physician unless the removal of sutures is done after one office visit for follow up examination has already been provided. If sutures are removed subsequent to the first post-operative office visit, or if they are removed by a physician other than the operating surgeon, or following an I.O.P. procedure, "visit fees" apply.
- (19) Additional claims for biopsies performed when a surgeon is operating in the abdominal or thoracic cavity may be given independent consideration.
- (20) When a procedure is performed for which only "local anaesthetic" and/or "general anaesthetic" listings appear, and an anaesthetic is not required, the procedure should be claimed under the "local anaesthetic" listing. When a physician administers an anaesthetic and/or other medication prior to or during a procedure(s) and also performs a procedure(s) on the same patient, he should claim for the procedure(s) only.
- (21) If claims are being submitted in coded form, the surgeon should add the suffix A to the listed procedural code, the surgical assistant should add the suffix B to the listed procedural code and the anaesthetist should add the suffix C to the listed procedural code.

(2) For excision of benign lesions, if closure is by pedicle flap or graft, apply closure codes instead of excision codes. If closure is by other flaps, I.C. may be given to the use of closure codes in lieu of the excision codes.

E542	— when sutures are inserted in private office or home, add		3.40	
Notes:	(1) The benefits for Z176, Z178 include the use of sutures, local anaesthetic, tetanus toxoid and routine observation until the sutures have been removed. (2) With the accord of the Ontario Medical Association, the following guidelines are suggested to assist in the determination of an appropriate charge to submit for independent consideration under Code Z178 for suture of skin lacerations: 1. The suturing of most simple lacerations smaller than approximately 4 cm in length should be coded as Z176 and claimed accordingly.			

SURGICAL PROCEDURES

OPERATIONS ON THE INTEGUMENTARY SYSTEM

SKIN AND SUBCUTANEOUS TISSUE – Cont'd

2. The suturing of other lacerations should be claimed under code Z178 on an Independent Consideration basis according to the following guidelines:
- (a) The stated benefits are for suturing the laceration only; the appropriate consultation or visits may be claimed in addition.

(b) Simple lacerations with a length of 4 cm or more, but less than approximately 8 cm\$ 22.00

(c) Lacerations in difficult area (e.g. lip, eyelid, eyebrow, corner of eye, etc.) or which are deep such that they require tying off bleeders and/or closure in layers (i.e. subcutaneous and cutaneous)\$ 22.00

(d) Lacerations involving components of both (b) and (c)\$ 44.00

(e) Lacerations requiring extensive debridement, add 50%.

(f) A combination of 2 or 3 lacerations falling within the foregoing guidelines would require individual assessment of each laceration. e.g.: for the suturing of a 6 cm scalp laceration requiring tying off bleeders and/or layer closure, a 3 cm cheek laceration and 1 cm laceration through the mucocutaneous border of the lip, the benefit claimed could be calculated as follows:

Scalp (d)\$ 44.00

Cheek (Z176) 8.90

Lip (c) 22.00

Total (Z178)\$ 74.90

(plus the appropriate consultation and visit benefits)

(g) More complicated lacerations should be compared in scope and difficulty with other similar services which have definitive benefits listed in the Schedule.
3. In every case, claims for Z178 should be accompanied by sufficient description of the procedure rendered and an explanation of the charges submitted (see Preamble, Part B, paragraph 22).

- Notes:
- (1) The benefit will depend on the size and location of the area grafted and the type of graft.

(2) Additional procedures other than the skin grafting are extra, e.g. tendon grafts, inlay grafts, etc.

(3) Skin grafts or pedicle flaps done during a procedure should be claimed for on their own merit (unless specifically listed as being inclusive for that procedure).

SURGICAL PROCEDURES

Preamble

- (1) Except for application of cast brace, no claim should be made for application of plaster if applied at the time of any surgery. The benefits for the treatment of fractures and/or dislocations also include initial and subsequent application of cast(s) (see also Fracture Preamble, paragraphs (e), (1)). However, if plaster is applied under any other circumstances, the claims for application of plaster should be made in accordance with the schedule listings on page 127.
- (2) Corrective splints must be "corrective" to qualify for benefits. The corrective splint listings are not applicable to simple immobilization such as with a Jones bandage or a metal finger splint following soft tissue injury.
- (3) The removal of a wire or pin or other device when used for traction or external fixation in the treatment of a fracture or other orthopaedic procedure is to be included in the procedural benefit. Removal of devices used for internal fixation may be claimed in addition to the procedural benefit.
- (4) The benefit for total hip replacement also includes denervation of the hip joint and adductor or abductor tenotomy.
- (5) When closed irrigation is instituted in a bony cavity, soft tissues or joint during a surgical procedure, add ~~\$46.40~~(E550).
- (6) When a bone, fascia or dermis graft is required (except for listings in which grafting is included in the benefit and except for fusions and management of pseudarthrosis) in the course of an operative procedure (including treatment of fractures) add \$50.40 (E551) if the autogenous graft is taken through a separate incision; add \$40.60 (E552) if autogenous bone is taken through the same incision, and add \$20.30 (E553) if homogenous bone is used. (except where segmental donor allografts are used to replace respective segments (see para. 18))
- (7) If methylmethacralate is required for internal fixation in the course of an operative procedure (with the exception of insertion of prostheses and cranioplasties), add \$50.40 (E547).
- (8) When an operation is done for the sole purpose of harvesting bone, the fee shall be 85% of the fee applicable for the resection of that segment of bone from a live donor and is to be charged to the recipient and a fee of ~~\$92.90~~ when the segment(s) of bone are harvested from a cadaver which is to be charged to the recipient.
- (9) For taking of a bone graft by other than the operating surgeon from the same patient, a fee of ~~\$123.80~~(Z242) shall be applicable.
- (10) Cost of materials is not a benefit of OHIP.
- (11) When secondary closure of skin wounds is required following bone surgery, add \$61.90 (E546).
- (12) Insertion of a wire or pin for traction (excluding fractures and dislocations) ~~\$20.60~~ Z 210

FRACTURES AND DISLOCATIONS

Preamble

- (a) **OPEN REDUCTION** shall mean the reduction of a fracture or dislocation by an operative procedure or the treatment of the fracture by intramedullary fixation that might not include the opening of the fracture.
- (b) **CLOSED REDUCTION** shall mean the reduction of a fracture or dislocation by non-operative methods (to include skin traction or K wire or Steinmann's pin for balanced traction.)
- (c) **CLOSED REDUCTION** and immobilization by percutaneous pinning of a fracture or dislocation shall command a closed reduction fee plus 30% (E569). Immobilization by rigid external skeletal fixation shall command a fee of 40% (E555) above closed reduction fee.
- (d) **NO REDUCTION** shall mean the treatment of a fracture or dislocation by any method other than that designated in (a), (b), or (c) above and includes the use of the initial external support.
- (e) The listed benefits for fractures or dislocations requiring no reduction include the major pre-operative visit. For fractures or dislocations requiring reduction, the major pre-operative visit (e.g. consultation, general assessment, etc.) may be claimed in addition to the listed benefits for reductions.
The stated benefit is to cover full treatment by the physician claiming that benefit, including initial and subsequent application of cast(s) and necessary after care up to 2 months (includes Therapeutic Procedures under G467), except as in (g) and (h) following.
- (f) For combinations of fractures, dislocations, and/or surgical procedures (non I.O.P.), the benefit for the major fracture, dislocation or procedure shall be 100%, and the benefit for other fractures, dislocations and/or surgical procedures shall be 85% where a procedural fee is applicable but where that fracture necessitates hospitalization or concurrent care, a visit fee will apply in addition to the procedural fees stated above.
- (g) In cases where two or more reductions (closed or open) are performed on different occasions for one fracture or dislocation by one or more surgeons; the full benefit should be claimed for the final reduction and after care. Previous attempted reduction(s) should be claimed at 75% of the full listed benefit(s) for that reduction.
- (h) When a patient is transferred from an acute care hospital to a chronic or convalescent facility, additional benefits on a chronic care basis shall be allowed to other than the operating surgeon. These benefits shall be based on the chronic care schedule.
- (i) Compound fractures or dislocations, requiring extensive debridement — 50% over the benefit for reduction (E556).
- (j) If reconstructive procedures on soft tissues are required, such services should be claimed on their own merit.
If bone grafts are used in open reduction of a fracture, paragraph (6) of the Preamble to the musculoskeletal system applies.

SURGICAL PROCEDURES

OPERATIONS ON THE MUSCULOSKELETAL SYSTEM FRACTURES AND DISLOCATIONS – Cont'd

- (k) When a patient is transferred to another surgeon for after care of a fracture or dislocation treated by no reduction or closed reduction, except for emergency splinting (see paragraph (l), below) the surgeon rendering the initial care should claim 75% of the listed benefit and the surgeon rendering the subsequent care visit fee except where otherwise specified. In cases involving open reduction, the percentages should be 80% for the surgeon providing the initial care. Paragraph (11) of the Preamble to Surgical Procedures also applies.
- (l) The benefit for emergency splinting of a fracture in the emergency department should be on the basis of the emergency room visit or the special visit to the hospital, whichever applies, plus application of cast if rendered and if consistent with other portions of this preamble.
- (m) In the case of fractures, dislocations or minor avulsion fractures not requiring reduction, consultation or visit benefits (use a fracture diagnosis) shall apply unless a specific benefit is listed. For fractures listed at "visit fees", the following also apply:
 - (1) When two or more fractures, each listed at "visit fees", are treated, only one visit benefit should be claimed for each visit, even though more than one fracture is assessed, treated, or re-assessed.
 - (2) When fractures or other procedures which are listed at "visit fees" are treated along with treatment of fractures which have definite benefits listed, visit benefits should not be claimed in addition to claims for other fracture care.
 - (3) When fractures or other procedures which are listed at "visit fees" are treated along with the performance of non-IOP surgery, visit benefits should not be claimed in addition to claims for the surgery.
 - (4) For the combinations described in items (2) and (3) above, visit benefits are appropriate for follow-up care of the fractures listed at "visit fees" only for visits which, because of these fractures, are required in addition to the usual after-care of the other fractures or other surgery.
- (n) In case of fractures or fracture dislocations with associated paraplegia, hospital visit benefits may be charged in addition to the surgical benefit after two weeks of post-operative care.
- (o) The removal of a wire or pin or other device when used for traction or external fixation in the treatment of a fracture or other orthopaedic procedure is to be included in the procedural benefit. Removal of devices used for internal fixation may be charged for in addition to the procedural benefit.

6. Schedule 16 to the said Regulation, as remade by section 8 of Ontario Regulation 332/81 and amended by section 2 of Ontario Regulation 459/81 and section 2 of Ontario Regulation 581/81, is revoked and the following substituted therefor:

Schedule 16

LABORATORY MEDICINE

Note: Claims for laboratory services, when referred by a Dentist, Osteopath, Chiropractor or Chiropractor are not insured services.

PREAMBLE:

1. The patient documentation and specimen handling benefit is applicable to all patients, except for those items listed under the anatomical pathology, histology and cytology sections. The items in this section have been left at a sufficient level to cover administrative costs. This benefit is not applicable to referred-in samples, since the collecting laboratory will already have claimed the patient documentation and specimen collection benefit.
2. The biochemistry section has been condensed so that one listing refers to a procedure for any of amniotic fluid (A), blood (B), C.S.F. (C), faeces (F), gastrointestinal fluid (G), urine (U). Exceptions are indicated by B, U, etc., following the test name. Other specimens will be considered on an I.C. basis.
3. A number of tests are listed in different sections of the schedule, i.e. when more than one method of performing the test is available, e.g. Aminophylline is listed under both Biochemistry and Radioassays. Assays of ligand type other than radioisotopic are listed under Biochemistry.
4. Blood glucose by the dipstick method may be claimed only when assessed by an appropriate instrument such as a reflectance meter. It should not be claimed when used only as a check on the fasting blood sample of a glucose tolerance test. The blood glucose of the fasting sample in a glucose tolerance test is allowable only once even if assessed by two methods.

Note: Glucose Tolerance Test is not listed in the Schedule. When requested the laboratory will comply with a standard 3-hour procedure consisting of 5 blood glucoses and 5 urinary sugar tests, unless specifically ordered otherwise (e.g. 5-Hour) and will bill for the number of each done if less.

5. Code L418 or L417 may not be claimed by a physician in addition to claim(s) for any treatment or assessment. However, Code G481 (see page 89 of the 1982 OHIP Schedule of Benefits) may be claimed by a physician if a haemoglobin screen (any method or instrument) is carried out in the course of an office or home visit. Urinalysis may be claimed with or without an associated visit to a physician's office (except for screening and urinalyses which are not medically necessary).
6. When a screening culture method (e.g. Agar spoon) is used on a urine sample, L641 refers to a culture technique and does not apply to those kits using the nitrite test only. Where a significant growth is obtained and followed up by definitive identification methods, L633 or L634 only should be claimed. The benefits for L633 and L634 include any necessary microscopic examination of the urine.
7. The Physician assumes responsibility for all cytology smears and the professional benefits (L804 to L815 inclusive, L817 and L826) are weighted averages of the professional component. These benefits, therefore, are applicable in each case whether or not all slides are examined by the physician.
8. Only those tests which are requested are to be claimed with the following exceptions. It is intended that if the test results yield abnormal findings or information which would be in-

LABORATORY MEDICINE

complete, insufficient or meaningless to the referring physician, the medical director of a laboratory may add further appropriate tests and claim for them with the knowledge he may have to substantiate their justification.

9. A test must be completed in accordance with the pertinent Schedule listing in order to charge for it. The verbatim listing is intended as the definitive benefit for that test alone, unless otherwise specified e.g. isoenzymes do not include total enzyme estimations: creatine does include creatinine (as specified). Notwithstanding the foregoing and recognizing that it is impossible to list all variations in techniques of all listed tests, when there is a modification of the usual technique, the listing most closely approximating it should be used.
10. This schedule, with the exception of L036, lists actual procedures performed. No claim shall be made for calculated values made and reported, or for control tests or repeat tests on the same patient sample.
11. The benefit for seminal fluid examination (complete) is to include sperm count, volume estimation, motility and morphology and viscosity. The benefit for seminal fluid examination carried out post-vasectomy is not to be claimed by the operating surgeon unless the patient requires more than one office visit post-operatively.
12. Creatinine is a justifiable addition in the case of tests on 24-hour urine samples, where it is necessary to assess the sample as a complete 24-hour collection. However, if several tests (e.g. steroids) are done on a single such sample, only one creatinine should be claimed for that sample. In those estimations where the test result is expressed in terms of creatinine excretion (i.e. a certain quantity per mg. of creatinine) the performance of a creatinine is mandatory and may be claimed).
13. It is recognized that in requests for a serologic titre, if a screening test is used and would suffice, the lesser benefit for the screening test should be claimed. If positive and followed by a serial titration, both the screening and titre fees may be claimed. If the titration is a micro technique using plates, it is the equivalent of a tube titre, the wells being miniature tubes.
14. When a test for trichomonas identification (any method) is carried out in association with L625 or L627, code L653 may be claimed in addition. L653 also may be claimed when Wet Preparation is used for direct examination of a fresh specimen for vegetative amoe-bae or similar parasites. However, the wet preparation used in the faeces concentration technique for parasites and ova is included in L650.
The conditions set down in paragraph 8 of this preamble must be adhered to.
15. It is recognized that in all laboratory tests there is a professional component.
16. The maximum number of units which may be claimed for any combination of L418 (Hemoglobin), L417 (Hematocrit); L399 (WBC Count) and L397 (RBC Count) is 11 LMS units, whether automated, semi-automated or manual methods are used. L700 is not included in this total and may be claimed separately, if appropriate. Laboratories using multichannel equipment should use individual codes as described above.
17. The maximum number of units which may be claimed for any combination of the tests represented by the following codes will be 40 LMS units per patient visit per day:

L005	L061	L194	L223	L252
L030	L067	L204	L225	

LABORATORY MEDICINE

L045	L111	L208	L226
L053	L191	L222	L251

This maximum of 40 units applies on a per patient basis, regardless of the number of specimens submitted and regardless of the number of laboratories involved in performing the individual tests. Code L700 is not included in this maximum and should be claimed separately, if appropriate.

18. The maximum number of units which may be claimed for any combination of chemical analyses performed on a single sample by means of an automated chemical analyzer with simultaneously functioning channels is 18 LMS units (L225).
19. The definitions and guidelines in this paragraph apply to the Blood Bank section of Laboratory Medicine:
 - (a) L471 Antibody Identification — incomplete antibodies. A panel of any number of cells regardless of suspending media or technique used. Preparation of eluate and/or antibody absorption is included.
 - (b) L472 Antibody Identification — complete antibodies. A panel of any number of cells for the identification of complete antibodies by direct agglutination.
 - (c) L473 Parallel Titration — to be used when two sequential patient serum specimens are tested to detect a change in antibody titre. Includes a repeat antibody identification on the current sample.
 - (d) L490 Blood Group — ABO and Rh₀(D). The subgroups of A and RhD⁺ are included where indicated. A direct AHGT is also included in L490, therefore, L495 may not be charged on the same patient when this code is claimed.
 - (e) L492 Crossmatch. When an initial crossmatch is requested the appropriate claim is for L490 x 1, L482 x 1 plus L492 for each unit ordered. L490 and L482 may not be claimed more than once on the same day of service. L490 and L493 may not be claimed when these procedures are carried out as a confirmatory test on the units of blood to be transfused.
 - (f) L493. This listing includes L490 (see (d), above) and Rh genotype to include the antigens C, D, E, c, e, and D⁺ when indicated. Any other antigen is to be claimed under L494.
 - (g) L494 Blood Group per antigen. Antigens stated in L493 and L490 are excluded from this listing.
 - (h) L495 Direct AHGT. This listing may be claimed when ordered as a single procedure or in addition to L482 when the latter is requested as a single procedure. L495 may not be claimed when L490 or L493 is claimed with L482 on the same patient on the same visit.
20. Antibiotic sensitivities should not be done routinely, but only when, by reason of its identification and/or its concentration, the isolated organism has a high probability of being pathogenic.
21. The use of Nickersons Medium as a screening test for yeast is not a benefit.
22. The carcinoembryonic antigen test (CEA) L690 is not to be used as a general cancer screen. It is to be used only for following established malignancies.
23. This preamble is intended to apply to everyone using codes L700 and L001 to L724 and codes L800 to L828.
24. The benefits for patient documentation and specimen collection and each test are calculated by multiplying the individual L.M.S. Unit values by

LABORATORY MEDICINE

25. Laboratory tests on specimens sent outside Ontario are not a benefit of the Plan.

L700	PATIENT DOCUMENTATION AND SPECIMEN COLLECTION BENEFIT	7	

- L700 may only be claimed with an "L" code other than L701 to L724 and L800 to L828.
- 1. Limited to 1 per patient, per day.
 - 2. Not allowed to the recipient of a referred sample from another laboratory.
 - 3. Not allowed to the attending physician.
 - 4. Not refundable (in whole or part) to the referring physician or referring laboratory by the laboratory performing the test(s).
 - 5. Not applicable to a patient visit solely to receive instructions or collection containers.
 - 6. When multiple tests are ordered for the same patient for the same day, only one L700 may be claimed even though all specimens may not be available on any one day.
 - 7. Not applicable to items under anatomical pathology, histology and cytology section.
